

TO-DO LIST APPS: THESE WILL REMEMBER EVERYTHING FOR YOU

Deepshikha Shukla

You no longer need to worry about forgetting your important to-dos anymore! You can let your smartphone remember things for you and remind you whenever and wherever you need. It is now possible to organise and track your everyday tasks by simply downloading an app. These apps let you edit and rearrange the to-dos based on changing priorities, share lists with family members or other collaborators, and get reminders for upcoming deadlines. The apps allow you to plan your holidays, team meetups, create shopping lists and other events of your life. These sync data and lists in real time across devices such as phones, tablets, computers and smartwatches, which means you can access them from anywhere and anytime. But how do you know you are getting the right app to match your lifestyle? A list of the best to-do list apps currently available for Android and iOS based on user reviews follows.

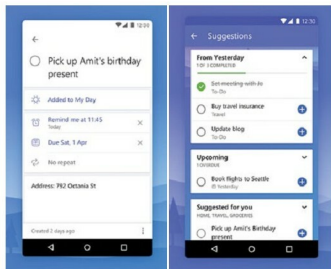

Wunderlist

Wunderlist

Wunderlist helps you organise your home, work and everything else. It enables you to list down things to do, capture ideas and places to visit. It allows you to share and collaborate with anyone. The app syncs files over phones, tablets or computers, so you can access the same from anywhere. You can start conversations over your to-do lists and attach photos, PDFs, presentations and more. Setting a reminder ensures you never forget important deadlines (or birthdays and other important events) ever again. The app is free to download and use. Upgrading for Wunderlist Pro gives unlimited access to files and assigning sub-tasks, for US\$ 4.99 per month.

Microsoft To Do

This app helps manage your day, work, office and home. Microsoft To Do syncs all your files between your phone and computer to enable access to them. You
