

can add reminders and due dates, and schedule and organise your tasks on a daily, weekly or yearly basis. You can set up recurring due dates, apart from adding details like address, details of books you want to read and website links important to you. You can create as many different lists as fits your lifestyle. The app is free to download and use.

Google Keep

You can quickly capture what is on your mind and set a reminder for later through Keep. You can add notes, lists or photos and share the same with friends, family and colleagues. You can also record a voice memo and transcribe it to find it later. Everything you add syncs with all your devices, so you can keep your thoughts with you at all times. Set a location-based reminder to pull

up your grocery list right when you arrive at the store.

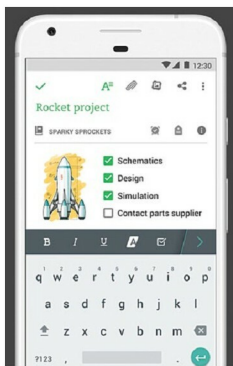

Ike

Ike helps you organise tasks by importance and urgency. It never lets you forget things like due dates and location reminders. Due dates can be set to repeat daily, weekly, monthly, yearly or be customised to a variety of configurations, such as every three weeks on Monday or every three months and so on. Location-based reminders can be set and customised for arriving at or leaving from a location. Location-based reminders also provide driving directions. You can add audio or

image(s) to a task to add more information about it. Images are seen directly in the task list and audio is played directly from the same. Audio recordings can be added to a task using Google's speech-to-text feature. Ike is free to download and use. You can upgrade your experience to Ike Pro to unlock all themes, widgets, up to five reminders per task, images, and more.

Evernote

Using this app you can write notes in a variety of formats, including text, sketches, photos, audio, video, PDFs, Web clippings and more. You can attach Microsoft Office docs, PDFs or photos, and organise your bills, receipts or invoices. You can also add scanned copies of printed documents, business cards and sketches and save your comments. It syncs all your files across all devices and helps plan events such as holidays, weddings or parties. Clip and highlight articles from the Web for academic research, or plan and collaborate for better academic group work using Evernote. You can upgrade to get ultimate workspace of 10GB of new uploads each month,

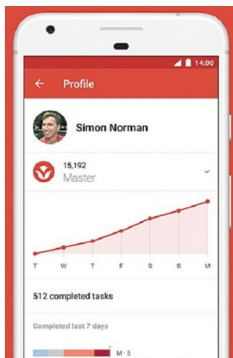

Evernote

to access notes and notebooks offline, save emails to Evernote or search inside Office docs and attachments, instantly for US\$ 7.99 a month or \$69.99 a year.
