

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Name, Date and Venue	Topics	Contact address for details
Gitex IoTX 2018 May 1-3, 2018 Dubai World Trade Centre, Dubai, UAE	The region's only dedicated, large-scale exhibition, connecting international and regional companies with senior buyers from core industries	Gitex IoTX 2018 Website: www.gitex.ae
World 3D Printing Forum 2018 May 2-3, 2018 Hotel Crowne Plaza Dubai, UAE	Brings together top stakeholders from industries such as construction, architecture, automotive, commercial products, consumer goods and consumer electronics, on one platform to discuss latest developments, challenges and business opportunities of 3D printing	World 3D Printing Forum Website: http://world3dprintingforum.com
CE China 2018 May 3-5, 2018 Shenzhen Convention & Exhibition Center, China	International trade show for consumer electronics	Website: www.cechina-tfa.com/en
The Aeonian 2018 May 15-17, 2018 World Trade Centre, Mumbai	Annual startup summit that recognises and rewards the startup community in India	The Aeonian 2018 Website: www.theaeonian.in/index.php
Medical Electronics Symposium 2018 May 16-17, 2018 University of Texas, Dallas, Texas, USA	An international conference, focusing on advances in electronic technologies and advanced manufacturing, specifically targeting medical and bioscience applications	Website: www.smta.org/medical/
Solar India 2018 Expo May 23-25, 2018 Pragati Maidan, New Delhi	Theme of the exhibition and conference is 'Solar Energy for a Sustainable Future'	Website: www.solarindiaexpo.com/
4th Smart Cities India 2018 Expo May 23-25, 2018 Pragati Maidan, New Delhi	Exhibition on smarter solutions for a better tomorrow	Website: www.exhibitionsindia.com
3rd India-Taiwan Electronics Summit June 1, 2018 Taipei	Summit on electronics system design and manufacturing	Website: www.eicna.com
JPCA Show 2018 June 6-8, 2018 Tokyo, Japan	48th international electronic circuits exhibition	Website: www.jpca.net/show2018/en/exhibition/index.html
6th Annual IT Legal Summit 2018 June 8, 2018 The Lalit Ashok, Bengaluru	Panel discussions on data protection, e-commerce and fintech, and more	Website: www.illegalsummit.com/
Robotics & AI Summit June 18-19, 2018, Boston, USA Boston Convention & Exhibition Center (BCEC) Boston, MA	Summit on the power of AI and robotics in manufacturing	Website: www.roboticsbusiness.com/conference/robotics-ai-summit
European Electric Vehicle Batteries Summit 2018 June 20-21 Munich, Germany	Brings together key industry stakeholders such as battery manufacturers, car manufacturers, energy storage component material developers, technology providers, grid operators, policy makers, environmental bodies and consultants	Active Communications International Website: www.wplgroup.com/active/levent/european-electric-vehicle-batteries-summit
ConnectTechAsia June 26-28, 2018 Singapore	Exhibition and summit on key technologies such as IoT, cloud/big data, cyber-security, TV Everywhere, ProAudio Tech, SatComm, 5G and more!	Website: www.ConnectTechAsia.com
SES 2018 July 5-6, 2018 Bengaluru	9th strategic electronics (defence and aerospace) summit	Website: http://ses-india.in/register.asp
Automation Expo 2018 Aug. 29-Sept. 1, 2018 Bombay Convention & Exhibition Center, Goregaon East, Mumbai	13th international exhibition & conference on automation	IED Communications Ltd Website: www.automationindiaexpo.com
IFA Berlin Aug. 31-Sept. 5, 2018 Berlin Exhibition Center (Expo Center City), Germany	International trade show for consumer electronics and home appliances	Website: http://b2b.ifa-berlin.com
China International Optoelectronic Exposition September 5-8, 2018 Shenzhen Convention & Exhibition Center Shenzhen, China	Leading exhibition for precision optics in China	Website: www.cioe.cn/en/
SEMICON Taiwan, 2018 September 12-14, 2018 Taipei, Taiwan	Premier event in Taiwan for microelectronics manufacturing	Website: www.semicon.taiwan.org/en
RoboBusiness 2018 September 26-27, 2018 Santa Clara Convention Center, Santa Clara, CA	Conference on the entire robotics ecosystem	Website: www.RoboBusiness.com
TAITRONICS Oct. 9-12, 2018 Taipei Nangang Exhibition Center	International electronics show	Website: www.taitronics.tw

Phone companies to scale up local production

Mobile phone makers such as HMD Global, Lava and Panasonic are finalising plans, including investments, for a higher scale of local manufacturing, in tandem with the government's imposition of duty on imported printed circuit board assemblies (PCBAs) from this fiscal year.

Heads of HMD Global—makers of Nokia brand of phones, Lava International and Panasonic India—say that the government's phased manufacturing programme, which envisages increasing the scale of local manufacturing by specifying components on which import duties will be levied over a couple of years, could make India a manufacturing hub over the long term. But duty impositions may drive prices of devices higher in the short term as the component ecosystem is not in place.

Push for generation, sustainability of solar energy by PHD Chamber

In the recently-held National Solar Summit 2018 organised by PHD Chamber of Commerce and Industry in New Delhi, the Chamber suggested that the focus of solar power should shift away from installation of solar plants to generation and sustainability of solar energy.

The Chamber strongly feels that India's solar plant installations are largely import-fed with better quality inputs. As a result, withdrawal of safeguard measures against solar panel imports should be undertaken in a phased manner. It suggested that sufficient encouragement should continue to happen at policy levels to encourage indigenous manufacturers of solar panels and other inputs that form critical components to setting up solar power installations.

A great deal of solar plant installations has been happening across the country at an accelerated pace, and the emphasis should now be on generation and sustainability of solar power plants. This will ensure that adequate non-conventional energy is supplied throughout the country, particularly in places where solar rays are powerful enough to generate energy.

According to the Chamber, National
