

ER200D

More sensitivity than U disk reader
No driver required
Ideal for android pad

ER200L

Adaptable 4 & 7 bytes UID for
RFID/NFC chip, Scan the UID and
result same with NFC phone

ER300D

Read UID, Just Plug and Play
No programming required
No software required

ER300L

Adaptable 4 & 7 bytes UID for RFID/NFC chip
Scan the UID and result same with NFC phone

YHY202D

Reader USB Dongle

Read UID, Just Plug and Play
No programming & software required

YHY502CG

Contactless operating frequency 13.56 MHz
Faster data transfer, Operating voltage DC 3.0-5.5V
Ideal for emoney, secure &
fast data collection applications

YHY502CTG
RFID Reader & Writer

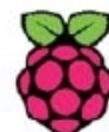

Complete Read/Write module with built-in transceiver antenna
Contactless operating frequency 13.56 MHz
Supports ISO14443A, 1K,4K TK4100 cards
TTL RS232 Interface, baud rate 19200bps

YHY522
RFID MODULE
(Contactless Reader/Writer)

Contactless operating frequency 13.56 MHz
RS232 Interface, baud rate up to 230400bps
Faster data transfer, Operating voltage DC 2.7-3.6V
