

NuMaker emWin N9H Human Machine Interface (HMI) Platform

Your quick and efficient path to high quality HMI

- Operating up to 300 MHz with ARM926EJ-S core; embedded up to 32 MB DDRII SDRAM
- Supporting up to 1024 x768 resolution and True Color 24-bit
- Integrated with TFT LCD controller /2D graphics accelerator /H.264 video decoding engine
- Incorporating rich peripherals: Ethernet /CAN /Serial Ports
- emWin Platform: NuMaker emWin M487 /N9H20 /N9H26 /N9H30 /NUC126

Digital Brightness Controller

Digital Temperature Controller
