

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Name, Date and Venue	Topics	Contact address for details
China Electronics Fair 2018 October 31 - November 2, 2018 Shanghai, China	Most comprehensive exhibition of electronics and ICT industry in China	Mesago Messe Frankfurt GmbH Website: www.icef.com.cn , www.mesago.de
electronica Munich November 13-16, 2018 Munich, Germany	International trade fair for electronic components, systems and applications	Website: www.electronica.de
Gartner Symposium/ITxpo 2018 November 13-16, 2018 Goa	Key priorities to drive revenue, change culture and power digital transformation	Gartner Website: www.gartner.com
India Consumer Electronics & Home Appliances Exhibition (CEI) November 22-24, 2018 Bombay Exhibition Center, Mumbai	B2B international trade fair	Worldex India Exhibition & Promotion Pvt Ltd Website: www.ceifair.com
Bengaluru Tech Summit 2018 November 29 - December 1, 2018 Bengaluru Palace, Bengaluru	Innovation and its impact	MM Activ Sci-Tech Communications Website: www.bengalurutechsummit.com
5th Wearable Expo January 16-18, 2019 Tokyo Big Sight, Japan	Wearable device and technology expo	Reed Exhibitions Japan Ltd Website: www.wearable-expo.jp/en-gb.html
IPC Apex Expo 2019 January 26-31, 2019 San Diego, California	Event for the PCB and electronics manufacturing industry	IPC Apex Expo Website: www.ipcapexexpo.org/html/default.htm
India Electronics Week (IEW) 2019 February 26-28, 2019 KTPO Trade Center, Whitefield Industrial Area, Bengaluru	Technology-centric show that showcases latest products, solutions and industry's best practices, involving design and manufacture electronics, to make products smarter	IEW 2019 Website: www.indiaelectronicsweek.com

Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.

investing US\$ 200 million over three years in India, and would be the first manufacturer in the country to build compact camera modules, thin-film transistors, capacitive touchscreen modules, flexible printed circuits and fingerprint sensors locally.

Andhra Pradesh government is offering incentives on tax, land and power and several other subsidies for setting up the plant in Tirupati.

SDMC to install solar plants on top of covered drains

South Delhi Municipal Corp. (SDMC) is planning to install solar plants atop covered drains to generate green energy. On a pilot basis, a solar plant of 500-kilo-watt capacity will be installed on top of a drain in Greater Kailash I (near B and R blocks). Also, a solar plant of 750-kilo-watt capacity will be placed atop a drain in Subhash Nagar. The total estimated cost of both projects is ₹ 68.8 million.

SDMC's decision to implement such projects in areas under their jurisdiction was inspired by Gujarat government's 2012 decision to install a canal-top solar plant on river Narmada.

Snippets

Karnataka overtakes Tamil Nadu in producing renewable energy

According to a report by The Institute For Energy Economics and Financial Analysis, Karnataka is now the leading state for solar power generation. As of March 2018, Karnataka had a capacity of 12.3GW of energy—it added 5GW of renewable energy in 2017-18 alone. Karnataka beat Tamil Nadu, which was the top producer of renewable energy for a long time.

India to manufacture solar cells for satellites

Indian Space and Research Organisation (ISRO) is planning to mass produce space solar cells, and has bought the technology from the US to do so. The contract for making these solar cells has been given to Bharat Electronics Ltd, which will mass-produce the cells at an ISRO facility in Bengaluru under the supervision of ISRO scientists.

Production of indigenously-developed lithium-ion batteries launched in Tamil Nadu

Tamil Nadu governor Banwarilal Purohit recently inaugurated a lithium-ion bat-

tery manufacturing demonstration plant in Chennai. According to *Times News Network*, the technology for the plant, developed by scientists at CSIR-Central Electrochemical Research Institute in Karaikudi, has been taken up for commercial production by Bengaluru-based Raasi Solar Pvt Ltd.

Bharat Forge adopts smart manufacturing norms at the workplace

Auto components maker Bharat Forge is embracing smart manufacturing standards in its workplace, reports *Hindu Business Line*. According to B.N. Kalyani, chairman and managing director, the company is proactively investing in machines and in enhancing people skills to realise Industry 4.0 standards. This is a part of its vision of moving towards a digitised workplace for higher levels of productivity and efficiency, across all operating processes.

Delhi Metro to get green power from Rewa Solar Plant

Delhi Metro will start getting power from solar energy soon. Delhi Metro Rail Corp. (DMRC) has signed a power purchase agreement with Rewa Ultra Mega Solar Ltd, which is based in Madhya Pradesh. The 750MW project in Rewa

district is spread over an area of 6.4sqkm (1590-acres) and is among the largest single-site solar power plants in the world.

IIT-Hyderabad develops AI to catch bikers without helmets

Researchers at Indian Institute of Technology Hyderabad have developed a solution using AI for automatic detection of motorcyclists driving without helmets in surveillance videos. The institute signed an MoU with Hyderabad City Police to gain access to video data from the city's CCTV network.

Nokia, T-Mobile sign US\$ 3.5 billion deal for 5G networks

Finnish smartphone giant, Nokia has entered a deal worth US\$ 3.5 billion with American network operator, T-Mobile for the development of next-generation 5G technology. This partnership has become the world's largest 5G deal till date.

Matrix awarded the India SME 100 Award 2018

Matrix has been declared as one of India's Top 100 SMEs. The company underwent stringent evaluation criteria laid down by India SME Forum Jury Board. Winners were chosen from 33,102 nominations based on financial and non-financial performances.
