image and provide educational programmes for all age groups across the education continuum.

“SEMI has made workforce development and talent advocacy a top priority, and dedicated significant resources and expertise to tackle the issue,” said Ajit Manocha, president and CEO, SEMI. “As the global industry association anchoring the US\$ 2 trillion global electronics industry and representing the end-to-end semiconductor supply chain, SEMI is uniquely positioned to address this problem. We look forward to forming partnerships in leading the way on behalf of our members to build the workforce of the future,” he added.

The programme will enable SEMI to establish scalable and sustainable education programmes extending from grade-schoolers to adults, offering experiential learning and training linked to the skill sets the industry needs most.

BEL receives first Green Channel Certificate

Navratna Defence PSU Bharat Electronics Ltd (BEL) has received the first Green Channel Status certificate from Directorate General Quality Assurance (DGQA) for supply of spares for a particular radar being manufactured by the military radar strategic business unit of BEL's Bengaluru Complex. It is the first certificate issued to any organisation in India after Green Channel Policy was formulated in March 2017.

The Ministry of Defence had promulgated Green Channel Policy for promoting ease of doing business as part of its Make in India initiative. A mechanism was set up to award Green Channel Status to firms with pre-defined financial and quality credentials for broad categories of items having continuous requirement in the defence forces. Responsibility of inspection of goods is given to the firms, after their credentials are verified by Green Channel Committee (GCC), which comprises various stakeholders from DGQA and the procurement ecosystem.
