

Initiatives by Industries to Meet Automotive Mission Plan

Table 3

Industrial and government initiatives		
Industry	Initiatives	Alignment with national mission
Toyota	- Toyota collaborated with industrial training Institutes/centres (ITIs and ITCs) to execute Skill India. - Toyota has partnered with 50 institutes so far under Toyota Technical Education Program (T-TEP) across the country to create skilled manpower. - Toyota's on-the-job training (OJT) enhances the skill sets of the future work-force for better employability. 10,000 students have already been trained under TTEP and OJT; 63 per cent of them have been recruited by Toyota dealerships across the country.	Skill India
Ashok Leyland	Ashok Leyland has planned a capital expenditure of ₹ 10 billion (US\$ 155.20 million) to launch 20 to 25 new models across various commercial vehicle categories in 2018-19.	Make in India
Maruti-Suzuki	- Maruti Suzuki's Japan-India Institute for Manufacturing (JIM) is a joint initiative between the government of India and government of Japan, and aims to create a pool of skilled manpower for industries in India. - Maruti-Suzuki has initiated an agreement with Ministry of Skill Development and Entrepreneurship (MSDE) to provide skill-based training to youth in automotive and manufacturing industry.	Skill India
Honda	- Honda Cars India has signed a memorandum of understanding (MoU) with Automotive Skill Development Council (ASDC) for accreditation of its training centre, Honda Vocational Training Institute (HVTI) in Tapukara, Rajasthan. - HVTI is Honda's technical training centre, which was set up in October 2011 with an initial investment of ₹ 51 million for building and equipment to develop skilled manpower equipped with automobile specific methodologies and create job opportunities for 12th standard passouts and ITI students. - The accreditation from ASDC will enable HVTI to develop and impart vocational training to the youth using a curriculum and protocol preset by ASDC. ASDC has over 240 training partners, 800 certified assessors, 14 expert groups with 295 industry experts and over 2000 training centres. - Honda Motors Co. has planned to set up its third factory in India in 2018-19 for launching hybrid and electric vehicles with the cost of ₹ 92 billion (US\$ 1.31 billion), its largest investment in India so far.	Skill India
Hyundai	- Hyundai Motor India Ltd, the second largest manufacturer of passenger cars and the largest exporter since inception entered into a partnership with Automotive Skills Development Council (ASDC) to conduct training and create job opportunities for unskilled manpower above eighteen years of age and having qualification of 8th standard and above. - This association will provide an opportunity to the youth to acquire skills related to automobile and manufacturing industry through specially designed Learn and Earn approach, consisting a mix of theoretical and OJT components, thereby improving their employability potential. It will also contribute in the overall growth of automobile industry by creating trained work-force. - Hyundai is planning to invest US\$ 1 billion in India by 2020.	Skill India
SAIC	- SAIC Motor has also announced to invest US\$ 310 million in India. - SAIC Motor Corp. Ltd (SAIC Motor for short) signed a strategic cooperative agreement with Huawei on Dec 21, 2018 for promotion of 5G Internet of Vehicles technologies.	Make in India
Tata	- Tata Motors aims to train up to 40,000 people in the next three years in skills associated with automobile industry for unemployed youth. - The company in collaboration with Automotive Skill Development Council (ASDC) has started skill development training at its different manufacturing plants, various dealerships and services centres. - This automobile cluster houses Maruti Suzuki, one of the oldest passenger car makers of India, which established its plant at Gurgaon in 1982. The cluster is spread across three states—Uttar Pradesh, Haryana and Delhi. Apart from manufacturing, the region also houses R&D and testing facilities at Rohtak and Manesar in Haryana. - The automobile revolution in Sanand, a town near Ahmedabad, Gujarat, began with Tata Motors' ambitious plant to manufacture cars.	Skill India and Make in India
Mercedes-Benz	Mercedes Benz has increased the manufacturing capacity of its Chakan Plant to 20,000 units per year which is the highest among any luxury car manufacturing in India.	Make in India
Volkswagen	Volkswagen's Chakan plant, which was built at the investment promise of US\$ 634 Million, has an installed production capacity of 200,000 vehicles per year.	Make in India
Ford	It was in 1995 when the US automobile giant Ford Motors set up its plant in Chennai that marked the arrival of the city as an auto hub.	Make in India
Nissan	Nissan, a Japanese car maker, is all set to inaugurate its India Design Centre in Chennai. This shows its intent to expand its footprint in the region in days ahead.	Make in India
Mahindra	Mahindra plant can produce 300,000 vehicles per year. The Pune-Talegaon-Chakan automobile cluster has an installed capacity of 1.1 million vehicles and 3 million two/three wheelers.	Make in India
Maharashtra Industrial Development Corporation (MIDC)	- MIDC started its automobile clustering due to its close proximity to the sea coast, availability of power supply, skilled labours and exceptional infrastructure. - Auto-hub in Chakan houses well-known auto industries, which includes Germany based Volkswagen and Daimler along with Indian auto majors such as Mahindra & Mahindra and Bajaj Auto. - Chakan's strategic location is the key driver for the rapid expansion of industries in the region. Its proximity to Mumbai's Jawaharlal Nehru Port Trust (JNPT), National Highways connecting important cities in Maharashtra, State Transport Corporation routes buses from all important cities of Western Maharashtra, which made it an attractive hub for automobile companies.	Make in India
