Gramophone

Updated: November 2019

OS: Android

Download: Full version (free)

Gramophone is an app for Indian farmers to receive expert suggestions, customised agronomy inputs and such agriculture products as seeds, pesticides, crop nutrition, implements and agri-hardware with free home delivery options. It provides a social platform, called Community, to interact with fellow and nearby farmers besides experts. In addition to crop-related data for soybean, cotton, onion, potato, banana, tomato and so on. Information about weather and *mandi* (large market) prices is also available. Expense calculator option does away with tedious record-keeping. The latest version includes OTP over call and better *mandi* summary.

Android

SmartFarm

Updated: June 2019

OS: Android

Download: Full version (free)

SmartFarm app assists farmers in regularly making decisions related to crop protection, fertilisation and other growth activities based on real-time information, for a better harvest. With real-time monitors for plants and livestock, improved planning reduces chances of such issues as pests and diseases. Add sensor (FieldMate, SoilMate and RainMate) option allows the user to start sending data within 24 hours. Sensor solutions communicate wirelessly via networks like LoRa or Sigfox. Advice modules, such as Weather & Disease Pressure, SprayPlanner and Alerts, purchased for the sensors get activated automatically in the app.

Android

Landwirt.com

Updated: October 2019

OS: Android and iOS

Download: Full version (paid)

Landwirt.com is an easy-to-use app that assists users in searching for classified ads and deals in their vicinity (between 0km and 500km) and abroad. Product categories (including second-hand items) such as tractors, tractor equipment, construction machinery and commercial vehicles are available for purchase. Buyers and sellers can directly interact with each other. Other features include filters while browsing to narrow criteria for great deals, agricultural news, photo competitions, live videos, videos related to agricultural technology, crop cultivation, horses and more.

Crofarm Store

Updated: September 2019

OS: Android

Download: Full version (free)

Crofarm Store allows farmers to sell their products like fruits, vegetables and exotics at optimal prices. After registration on Crofarm, retailers can access the app. It comes with multi-linguistic support (Hindi and English). After orders are placed via the app, all logistics get automatically handled for smooth doorstep delivery. Users can check the status of their payments instantly, manage payments based on the ledger and track details of their orders (active, in transit or delivered). Advanced orders get access to beneficial deals.

Android

Agrostar Agri-Doctor

Updated: August 2019

OS: Android

Download: Full version (free)

AgroStar Agri-Doctor is an app for Indian farmers that provides identification of and solutions for crop-related issues for more than fifty crops as well as the shopping section for items like seeds, fungicides, weedicides, crop nutrition products and farm implements. Farmers can use pictures, videos and texts to post their issues. The app provides weather updates for the next fourteen days in a particular location along with alerts to take necessary actions in harsh conditions. Support for local languages like Hindi, Gujarati, Marathi and Tamil is also available. The app works offline and in 2G and 3G for ease of access in rural areas.
