

Global Manufacturing Competitiveness Index Ranking

2016 (Current)			2020 (Projected)			
Rank	Country	Index score (100=High) (10=Low)	Rank	2016 vs 2020	Country	Index score (100=High) (10=Low)
1	China	100.0	1	(▲+1)	United States	100.0
2	United States	99.5	2	(▼-1)	China	93.5
3	Germany	93.9	3	(↔)	Germany	90.8
4	Japan	80.4	4	(↔)	Japan	78.0
5	South Korea	76.7	5	(▲+6)	India	77.5
6	United Kingdom	75.8	6	(▼-1)	South Korea	77.0
7	Taiwan	72.9	7	(▲+1)	Mexico	75.9
8	Mexico	69.5	8	(▼-2)	United Kingdom	73.8
9	Canada	68.7	9	(▼-2)	Taiwan	72.1
10	Singapore	68.4	10	(▼-1)	Canada	68.1
11	India	67.2	11	(▼-1)	Singapore	67.6
12	Switzerland	63.6	12	(▲+6)	Vietnam	65.5
13	Sweden	62.1	13	(▲+4)	Malaysia	62.1
14	Thailand	60.4	14	(↔)	Thailand	62.0
15	Poland	59.1	15	(▲+4)	Indonesia	61.9
16	Turkey	59.0	16	(▼-1)	Poland	61.9
17	Malaysia	59.0	17	(▼-1)	Turkey	60.8
18	Vietnam	56.5	18	(▼-5)	Sweden	59.7
19	Indonesia	55.8	19	(▼-7)	Switzerland	59.1
20	Netherlands	55.7	20	(▲+3)	Czech Republic	57.4
21	Australia	55.5	21	(▼-1)	Netherlands	56.5
22	France	55.5	22	(▼-1)	Australia	53.4
23	Czech Republic	55.3	23	(▲+6)	Brazil	52.9
24	Finland	52.5	24	(↔)	Finland	49.7
25	Spain	50.6	25	(▲+2)	South Africa	49.3
26	Belgium	48.3	26	(▼-4)	France	49.1
27	South Africa	48.1	27	(▼-2)	Spain	48.4
28	Italy	46.5	28	(▲+5)	Romania	45.9
29	Brazil	46.2	29	(▼-3)	Belgium	45.8
30	United Arab Emirates	45.4	30	(▼-2)	Italy	45.0
31	Ireland	44.7	31	(↔)	Ireland	43.7
32	Russia	43.9	32	(↔)	Russia	43.6
33	Romania	42.8	33	(▼-3)	United Arab Emirates	42.6
34	Saudi Arabia	39.2	34	(▲+2)	Colombia	40.9
35	Portugal	37.9	35	(↔)	Portugal	40.1
36	Colombia	35.7	36	(▼-2)	Saudi Arabia	36.1
37	Egypt	29.2	37	(↔)	Egypt	28.3
38	Nigeria	23.1	38	(↔)	Nigeria	25.4
39	Argentina	22.9	39	(↔)	Argentina	24.6
40	Greece	10.0	40	(↔)	Greece	10.0

technology will alter the business or social landscape, but some truly do have the potential to disrupt the status quo and alter the way people live and work.

MGI also shared insights into the upcoming wave of twelve technological developments, termed as the Dis-

ruptive Dozen, which will have the greatest impact on the way we live now and have the highest potential to recast the business landscape in the coming decade. **The Disruptive Dozen includes mobile Internet, automation of knowledge work, the Internet of Things (IoT), cloud technology,**

advanced robotics, autonomous and near-autonomous vehicles, next-generation genomics, energy storage, 3D printing, advanced materials, advanced oil and gas exploration and recovery, and renewable energy.

These technologies are to add between US\$ 500 billion and US\$ 1 trillion to India's economy, and will significantly improve the lives of people. Therefore the Indian ESDM industry should strengthen the capabilities to leverage the benefits of these disruptive technologies.

India advantage

India, being one of the largest electronics markets in the world, is anticipated to reach US\$ 400 billion by 2025. The consumer electronics and appliances industry in the country is also expected to become the fifth largest in the world by 2025. In addition to that, FDI allowance up to 49 per cent of electronics items for defence under automatic route and beyond 49 per cent through the government approval, and 100 per cent FDI allowance under the automatic route for all other electronics items, help attract investments in this sector.

The Indian ESDM sector is driven by such macro-economic factors as growing middle-class population and rising disposable income. In addition, declining electronics prices and adoption of high-end technology devices are leading to an uptick in consumption of electronic devices.

Further, technology transitions such as the rollout of 5G networks and the IoT are driving accelerated adoption of electronics products. Initiatives such as Digital India and Smart City projects have raised the demand for the IoT in the market. Similarly, the digital banking sector like wallet players and payment banks will raise demand for point-of-sale (POS) and very small aperture terminal (VSAT)-enabled mobile ATMs, which will further give a fillip to the growing industry.

The government of India has prioritised the ESDM sector under Make in India programme. Various policy initiatives, including National Policy of Electronics (NPE), aim to increase domestic production and export of electronics, and propel the growth of the ESDM industry. NPE 2019 aims to do the following:
