

Air purifier

With built-in humidifier

While understanding the urgent need to take corrective steps for a healthier life indoors, Eureka Forbes has introduced Dr Aeroguard SCPR 660H. The air purifier is specially built in India

Price
₹ 37,990

to handle the onslaught of punishing levels of pollution across all parts of the country. Each filtration level has been designed keeping in mind the various pollutants prevalent in the environment today, namely, dust, smoke, volatile organic compounds, pollen, allergens, pet dander, particulate matter (PM 2.5/10), and industrial pollutants like lead arsenic and nickel.

Certified for the highest standards of quality by GUI Lab in Germany and patented with Duo-tron TM technology, SCPR 660H comes with an inbuilt humidifier. It is powered with a HEPA filter that can remove 99.97 per cent of the micro-particles, with added anti-allergen and anti-bacterial filters that trap airborne particles.

Power bank

Featuring Quick Charge 3.0 technology

Ambrane India has unveiled its latest 30,000mAh power bank—PP30—with quick charge support. It also comes with USB Type C port that can charge devices and also be used to charge the power bank itself. Quick Charge 3.0 technology enhances user experience by charging up to 80 per cent faster than conventional power bank charging.

PP30 comes with dual input of 5V/2A (micro + Type C) that automatically adjusts output based on the device. It offers 500-plus power cycles in its lifetime. It only takes 13 to 17 hours for devices to get fully charged.

Fabricated with a lithium-polymer 30,000mAh battery, the power

bank equips a multitude of advanced safety features, namely, short-circuit protection, over-charge protection, over-discharge protection and over-voltage protection, which ensure device safety at all times.

Feature phone

Delivering incredible battery life, reliability and simplicity

Nokia 106 features incredible battery life, enabling users to talk from sunrise to sunset on a single charge—with up to 15.7 hours talk-time and up to 21 days standby time. It offers an iconic Nokia feature phone design in a tough polycarbonate body. Its inherent colouring means the colour runs through the material, which makes scratches less detectable. Thanks to its contoured design, Nokia 106 fits perfectly in the hand. The carefully-considered spacing between each button on the keypad makes it easy to dial and text, even in the dark.

Featuring all basic everyday essentials, it comes with the classic Snake Xenzia game and can store the entire address book with space to hold up to 2000 contacts. Other features include LED torch, FM radio and space for storing up to 500 messages.
