

Answer All Your Unique Power Supply Application Requirements

PEL-3000 Series

Programmable D.C. Electronic Load

PSU-Series

Programmable Switching D.C. Power Supply

GPP-Series

Multi-output Programmable D.C. Power Supply

PSW-Series

Programmable Multi-Range D.C. Power Supply

APS-1102A

Programmable A.C./D.C. Power Source

GW Instek categorizes power supply product lines into DC power supply, AC power supply, and DC electronic load and extends the product range to more than 100 products which aim at sectors like electronics products' testing and assembly, R&D, burn-in, and power supply testing equipment for aging testing house. The extensive applications of power supply products encompass education, information electronics products, cellular phone, wireless communications products, components, batteries, automobile electronics, military, and aerospace industry.

- D.C. Power Supplies up to 6KW
- D.C. Loads up to 9.45KW
- A.C. Sources up to 3KW
