

User's voice Nikon is here for you !

Born in Japan Over 100 years ago, Now loved the World Over.

**Engineering
Cluster Pune**
enabling cohesive partnership

Industrial Microscopy & Laser Scanner User

Sukharta Engineering Cluster Supported by Ministry of MSME uses Nikon Optical and 3 Dimensional Inspection systems. The cluster supports the need arising for Product Development and Quality Control for Automotive and Engineering parts manufactured by MSME. High Resolution Microscopes provide Image with Clarity for analysis. The CMM Laser Scanners maintain high performance threshold by providing high quality point cloud data for QC & RE.

Mr. Rajesh Chavan & Mr. Sagar Shinde, Directors

Video Measuring System User

Nikon Optical measurement and Inspection Systems offer clear and deeper insights into product's manufacturing detail with consistency. Thus High Resolution of the systems – VMA 2520 Vision Inspection System with Multi Sensor Capability with the Lens Laser, provide us reliable and repeatable results for Product Development and Inspection.

Mr. A R Purandare, DGM - CQA - BEL Pune

X-Ray User

We bought Nikon XT H 225ST microfocus X-ray, it's open tube design helped us to run the machine very cost effective as filament cost is less than Rs 2,000 which runs for more than 300 hrs. It provide us clear in depth X-ray images, which helps us to improve the quality of our product for Automotive Electronics and Mechanical Assemblies..

Mr. A Mishra, Manager- Minda Rika

Laser Scanner User

The Nikon LC 15Dx Laser Scanner is a High Accuracy, High Repeatability and Fast Measurement sensor for Coordinate Measuring Machines. With it, in addition to accelerating our Turbine Blade Production with Complex Aerofoils, we are also able to explore New Possibilities in the Area of Pipe fittings and Heavy Commercial Vehicle Components.

Mr. Vinod Reddy, Managing Director - Fine Forge

**Nikon India
Vice president**

Mr. Akira
Muramoto

I am appreciating thank you very much this advertisement with valuable Nikon's family companies. I think that your first inspiration of Nikon is "Camera". However Nikon's first product was "Microscope" So Nikon is pioneer of instruments measuring equipment since 1965. We specialize in creating manufacturing process.

Nikon's measurement deceives constitute to superior product quality and safety in industries ranging from automotive to electronics and aviation. I would like to say "Nikon is here for you!"

We are Nikon-India would like to grow with many India customers future.
