

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Name, Date and Venue	Topics	Contact address for details
ReCommerce Expo 2019 February 1-3, 2019 Manpho Convention Centre, Bengaluru	Platform that brings together vendors, distributors, OEMs, e-commerce players and customers from the re-use and refurbished products segment	ReCommerce Expo Website: www.recommerceexpo.com
23rd International Engineering & Technology Fair (IETF 2019) February 3-5, 2019 Pragati Maidan, New Delhi	International B2B event for engineering and technology	Confederation of Indian Industry (CII) Websites: www.ietfindia.in , www.cii.in
10th Source India February 15, 2019 Hotel Green Park, Chennai	Indian electronics supply chain	ELCINA Website: http://sourceindia-electronics.com , www.elcina.com
FLEX 2019 and MEMS & Sensors Technical Congress February 18-21, 2019 Hyatt Regency, Monterey, California, USA	Applications and innovation drivers in key markets such as smart med-tech, smart transportation and the Internet of Things	SEMI Global Headquarters Websites: http://flex.semi.org , www1.semi.org
IESA Vision Summit February 19-20, 2019 Bengaluru	Event on ESDM in South-Asia	India Electronics and Semiconductor Association (IESA) Website: www.iesavisionsummit.org
India Manufacturing Week February 22-24, 2019 Bombay Exhibition Centre, Mumbai	Platform to enable SMEs to build linkages with defence and aerospace production units	Infinity Expo Website: www.indiamanufacturingweek.com
India Electronics Week (IEW) 2019 February 26-28, 2019 KTPO Trade Center, Whitefield Industrial Area, Bengaluru	Technology-centric show that showcases latest products, solutions and industry's best practices, involving design and manufacture electronics, to make products smarter	IEW 2019 Website: www.indiaelectronicsweek.com
International Wireless Communications Expo (IWCE 2019) March 4-8, 2019 Las Vegas Convention Center Las Vegas, USA	Wireless communications systems event for the working world	IWCE Website: www.iwceexpo.com
Cognizance 2019 March 15-17, 2019 IIT Roorkee, Uttarakhand	Annual technical festival of IIT Roorkee	Cognizance Website: www.cognizance.org.in
3rd International Conference on 3D Printing Technology and Innovations March 25-26, 2019 Rome, Italy	Showcasing the future of 3D printing in engineering and medicine	Conferenceseries LLC Ltd Website: https://3dprinting.insightconferences.com
Future Cities Show 2019 April 8-10, 2019 Dubai World Trade Centre, Dubai, UAE	Platform for local and international institutions from various industries to showcase their latest technologies	Strategic Marketing & Exhibitions Website: www.strategic.ae , https://futurecitiesshow.com
Automate 2019 April 8-11, 2019 McCormick Place, Chicago, Illinois, USA	North America's broadest automation event	Association for Advancing Automation Website: www.automateshow.com
AeroDef Manufacturing April 29 - May 2, 2019 Long Beach Convention Center, California, USA	Smart technologies and intelligent people propelling aerospace and defence manufacturing	AeroDef Manufacturing Website: http://aerodefevent.com
Global Robot Expo May 8-9, 2019 IFEMA, Madrid, Spain	International exhibition on robotics	Global Robot Expo Website: www.globalrobotexpo.com
CommunicAsia June 18-20, 2019 Marina Bay Sands, Singapore	Asia's key international information and communication technology (ICT) trade event	ConnecTechAsia Website: https://communicasia.com
Power Asia 2019 August 10-12, 2019 Pragati Maidan, New Delhi	An exhibition on power generation, power backup systems, power-saving devices and alternate sources of energy	Creative Edge Email: powerasia19@gmail.com
productronica India September 25-27, 2019 India Expo Centre, Greater Noida, Delhi-NCR	International trade fair for electronics development and production	Messe Muenchen India Pvt Ltd Website: www.mm-india.in
electronica India September 25-27, 2019 India Expo Centre, Greater Noida, Delhi-NCR	India's and South Asia's leading international trade fair for electronic components, systems and applications	Messe Muenchen India Pvt Ltd Website: www.mm-india.in

Indian electric car market to reach US\$ 707 million by 2025

Supported by government schemes, falling battery prices and growing environmental concerns, the Indian electric car market is estimated to reach US\$ 707.4 million by 2025, according to a report by market research and consulting firm, P&S Intelligence. The Central as well as state governments have offered several incentives like tax rebates, subsidies and grants, to promote electric car adoption in India.

It is these policy initiatives that are predominantly driving the demand for electric cars in the country, the report said. Over the past decade, the urban population in India has increased significantly, resulting in rising pollution levels. To curb pollution, the Indian government is supporting and promoting the adoption of electric vehicles (EVs) in the country through its various financial schemes and incentives.

Govt plans six-fold increase in funds allocation under FAME II

The government of India is planning a six-fold increase in the allocation of funds for the second phase of FAME (Faster Adoption and Manufacturing of Hybrid & Electric Vehicles) India scheme. This will include an investment of about ₹ 55 billion over the next five years to provide subsidies for all types of EVs including two-, three- and four-wheelers, to promote environment-friendly vehicles and check pollution, reported *Auto Car*.

Under FAME I, the government had sanctioned a corpus of ₹ 7.95 billion, which was later augmented to ₹ 8.95 billion. The aim was to create demand incentives, build infrastructure (within which EV homologation facilities are set up at ARAI and other centres), support many R&D projects and launch new pilot projects.

BHEL likely to tie up with US company to make EV batteries

Bharat Heavy Electricals Ltd (BHEL) has started talks with a US-based company to form a joint venture in India to manufacture lithium-ion batteries for EVs, heavy industries minister Anant Geete told *PTI*. According to Geete, India is at present totally-dependent on imports for its lithium-ion battery
