

NuMicro® NUC029 Series Arm® Cortex®-M0 Microcontroller

5V MCU with high noise immunity for industrial control applications

- Arm Cortex-M0 based MCU, 2.5V - 5.5V, 24MHz - 72MHz, 16KB - 256KB Flash, 2KB - 20KB SRAM
- Rich peripherals: 6-ch UART/ 5-ch SPI/ 5-ch I²C/ 3-ch LIN/ USB 2.0 FS
- Up to 15 channels 12-bit 1 Msps ADC and Up to 4 rail-to-rail comparators (ACMP)
- Selectable Clock sources including HXT, LXT, HIRC, LIRC and PLL
- Power management integrated with Power-on Reset, Brown-out Reset and Low Voltage Reset
