Duty-free handsets from SEZs are a threat to local manufacturing units

Cellphone vendors have warned the government against allowing manufacturers to sell their devices made in special economic zones (SEZs) at zero duty rate in the local market on the grounds that it will threaten the proposed US\$ 2 billion investment to boost local manufacturing units.

SEZs were set up to draw foreign investments and promote exports. Units in SEZs can sell goods and services locally in accordance with the country's import policy and payment of applicable duties.

In a letter addressed to Finance and Information Technology Ministry, Indian Cellular and Electronics Association (ICEA) president Pankaj Mohindroo raised concerns that such a move would be without any substantial value addition. It would also kill the 268 factories set up in the phased manufacturing plan (PMP).

The letter also stated that more than ₹ 50 billion had already been spent in the units, and smartphone manufacturers such as Vivo, Oppo, Samsung and Wistron had received approvals for their investments in India under PMP.

Xiaomi to partner with component manufacturers for local production

Xiaomi is currently in talks with two new component manufacturers to set up production units and support its growing smartphone business in India. Manu Kumar Jain, vice president, Xiaomi Global and managing director, Xiaomi India, told *Economic Times* that the company was yet to finalise things.

The Chinese smartphone brand was aiming to draw investments from its suppliers in Mainland China and Taiwan. Xiaomi had earlier projected that these suppliers would invest around US\$ 2.5 billion in India's production facilities.

Among the suppliers, Holitech Group emerged as the first one to start working on its upcoming plant in Andhra Pradesh. It has
