

vehicle battery or other unregulated supply. Power management happens in the background and is transparent to the host system, making these a drop-in upgrade for existing Hall-effect switches, or a solid-state replacement for mechanical microswitches or reed switches.

Power SIP relay

IXYS Integrated Circuits Division, now part of Littelfuse, has introduced CPC1984Y — a 600V, normally-open power SIP Relay, rated for up to 1A DC/1Arms continuous load current. This high-reliability device uses optically-coupled MOSFET technology to provide 4000Vrms of input-to-output isolation.

TEST & MEASUREMENT

5G conformance toolset

Keysight Technologies' 5G conformance toolset is the first test solution to be approved for 5G New Radio (NR) device certification by PTCRB—a certification forum comprised of select leading cellular operators, accelerating commercial availability of 5G mobile devices across the ecosystem. The toolset, based on Keysight's UXM 5G wireless test platform, and part of Keysight's 5G Network Emulation Solution portfolio, supports the first and only 5G RF test case validated to help device manufacturers verify compliance to 3GPP 5G NR NSA (non-standalone) requirements for minimum output power generated by a 5G mobile device in sub-6GHz frequencies.

IR thermometer

Rugged design with waterproof (IP65)

and 3m (9.8-foot) drop-proof protection, Extech IR320 provides fast temperature measurements from -4°F to 1202°F (-20°C to 650°C) with high basic accuracy and adjustable emissivity. Its dual guided laser shows the target area between two points (~25mm diameter of measured area) at a 12:1 distance-to-target ratio. It also features programmable high and low alarms with red (high) and blue (low) visual LED alert, along with lock function for continuous measurement without pressing the trigger.

Vector signal analyser

Key features of the compact USB vector signal analyser with demodulation capability are:

- 1MHz to 6.0GHz frequency range with -166dBm DANL

**SPARR
Electronics
Limited**

Everything Embedded

An Embedded Systems, Networking & Communication Products Company

The Spirit of SPARR

Our Vision

To be a trusted innovation partner in providing cost effective technology solutions with world-class quality and best-in-industry turnaround time.

Our Mission

To contribute to your business success with our design-to-delivery solutions, utilizing 30+ years of industry experience.

Our Purpose

At SPARR, all our actions are motivated by our intent to create customer delight.

Sparr Core Competencies

- Controller Boards
- Protocol and Interface Converters
- Wired & Wireless Connectivity Solutions
- Remote Monitoring Solutions
- IT Security and Messaging Solutions

Why Choose SPARR Electronics?

30+ years of operational excellence

Capability to design and develop innovative solutions

In-house manufacturing facility

High-quality reliable products

ISO 9001: 2015 Quality Certified for over 15 years

Entrusted by customers for more than three decades to address their critical solutions needs
