Tablet PC

For an immersive experience on screen

iBall has unveiled a new tablet PC, iBall Slide Skye 03. High on style and features, iBall Slide Skye 03 brings a sleek and attractive design balanced with bold finish. The device sports a 17.8cm (7-inch) screen with full-capacitive, multi-touch HD display and a screen resolution of 1024x600.

With Android 8.1 Oreo (Go edition) on a quad-core processor, the tablet PC brings immense computing power for work and play. It adds further multitasking experience for terrific performance, with 1GB RAM and 8GB built-in memory (expandable up to 64GB via microSD card).

Equipped with 2MP rear camera with LED flash and 0.3MP front camera, users can capture memorable moments with just a click. A 2800mAh battery capacity ensures longer hours and lets the tablet operate at its peak. The device keeps users entertained with its chambered speakers, which are loud and clear.

With USB OTG function, iBall Slide Skye 03 enables users to connect pen drives and other external devices. The micro-SIM-supporting device comes with a built-in phone calling function. It also supports multiple languages (read and write) through a built-in multi-language keyboard.

Car charger

For those who are always on-the-go

Lapcare has introduced smart car chargers in two power capacities of 150W and 200W. The 150W variant has a single USB port and three-pin socket. It converts DC to AC power, which can be used to give electrical energy to any device that is normally used while travelling, including laptops, car monitors, DVDs, cellphones, tablets, digital cameras and USB chargers.

The 200W smart car charger features a double USB port and three-pin socket. AC socket of this device operates like that of the main socket at home. Smooth and

sturdy, this compact inverter has been developed keeping in mind on-the-move laptop users.

Both chargers come with cooling fan and universal socket, smart design, low-voltage shutdown, auto overload protection, safety shutter, reverse polarity protection by fuse and overheat protection. These are also covered by Lapcare protection plan.

Earphones

Perfect companion for outdoor as well as indoor activities

Syska Group has launched Reverb C2 wireless earphones, which are powered by a long-lasting battery. The earphones feature high-definition speakers and multi-function buttons with IPX4 water-resistant and magnetic earbuds.

Syska Reverb C2 is engineered for high-definition sound with HDAB technology combined with high-precision auto-level equaliser. The device is compatible with all types of smartphones, tablets, PCs, Macbooks and music players. It seamlessly integrates the in-built equaliser function of Google Music and iTunes, without an additional app.

C2 is designed ergonomically for long-term wear. It can be worn around the neck, and the stabilising silicon ear gels provide in-ear comfort. It is built with polyurethane joints to keep it lightweight and easy to carry around.
