

Gemio band is the ultimate accessory to light up life

or festival. It comes in two variants: Gemio Band 1 that supports wireless charging and Gemio Band 2 that charges through a USB cable.

Ringly. Ringly comes equipped with features that help you stay connected to people and activities that matter most. It syncs with your smart-

Ringly smartring

phone to alert you to calls, messages and emails. It works with a number of social networking apps, including Facebook, Twitter, Instagram and Snapchat, among others.

The smartring allows you to stay balanced with audio-guided meditations and breathing exercises.

Unago. US-based Omate teamed up with French fashion house Emanuel Ungaro to come up with fashion-forward wearable tech. Among their offerings is Unago ring that only notifies you of calls or messages from the

Unago smartring

one person who is most important to you. Since the smartring only vibrates for one person, the battery lasts for five days on a single charge.

The ring comes with either 18-karat gold or silver plating, and a choice of gemstones (blue topaz, opalite, onyx, sapphire or ruby). It is assembled by the world's leading fine jewellery maker, Richline, in Arezzo, Italy.

A number of hi-end fashion brands are getting on the wearables wagon. Some popular collaborations include Kate Spade and Fossil, Tory Burch and Fitbit, Swarovski and Misfit, Hermes and Apple, and so on.

CLASS STARTS
On 2nd Jan 2019

ADMISSIONS OPEN

Ampere VLSI Academy offers an Advance VLSI Verification course in the field of Semiconductor design:

- Strong Digital/Verilog Foundation
- State of the art VLSI verification concepts
- Extensive Training on SV/UVM
- Hands on projects experience in cutting edge technologies like PCIe, DDR, AXI Interconnect, SOC Verification
- Access to Industry Standard Tools
- Lectures by Industry experts

LIMITED SEATS AVAILABLE!
