

QUIKorrect Static Voltage Stabilizer

PATENTED TECHNOLOGY

Failure of Servo Stabilizers in CNC machines, petrol pumps, telecom installations, textile machines etc?

SWITCH TO STATIC VOLTAGE STABILIZER - IGBT based PWM type design

Manufacture in your own brand name.

Technology transfer of QUIKorrect Static Voltage Stabilizer up to 70KVA single phase and 200KVA three phase.

- No wear & tear • No tap changing • Wide input range • 1% tight regulation
- Correction speed over 20000V per second • Protections - overload, short circuit, low voltage, high voltage etc • Low cost BOM • LCD and data storage for over 1 year

For video demonstration, go to google / youtube and search "QUIKorrect"

BOM of a 20KVA single phase QUIKorrect Static Stabilizer with input range +/- 10% = Rs.12000

Technology transfer up to 200KVA three phase – Rs.11,00,000
