

PRODUCE ELECTRIC
VEHICLE BATTERIES
WITH AMAZING EFFICIENCY.

Don't let EV production get bogged down by a slow and costly battery formation and test phase. With new power products, integrated, high-precision solutions and production-ready reference designs from ADI, you can produce batteries up to 50% more cost-effectively. And you can bring test equipment to market up to 80% faster. Now that's how to electrify the automotive market.

ELECTRIFY BATTERY FORMATION AND TEST PRODUCTION
