

### Investment in aerospace, defence sectors to boost India-France strategic partnership

More investments in the field of defence and aerospace will boost the strategic partnership between India and France, said Alexandre Ziegler, French Ambassador to India. Speaking on the second day of Paris Air Show, the ambassador said that he is looking forward to supporting all efforts by India in the establishment of long-term and win-win cooperation in the aerospace and defence sectors. Ziegler added that French industrial facilities in India, big and small, which France is strongly supporting, are indeed flourishing. He sees this as good news, especially because more and more Indian companies are also investing in France.

### EVs in India to be exempt from registration fees

The government has made a proposal to exempt electric vehicles (EVs) from registration charges in a bid to promote electric mobility in the country. The exemption will apply to all categories of EVs operating in India. The move comes amid swift momentum gathering around EVs in the country as the government works out a roadmap for the transition to cleaner sources of mobility.

### Infineon, AIC-Sangam sign MoU to strengthen startup growth in India

Infineon Technologies and Atal Innovation Mission's AIC-Sangam have signed a memorandum of understanding (MoU) to nurture technology startups with a focus on making lives easier, safer and greener. Under the collaboration, Infineon will sponsor lab equipment and offer business and technical guidance as well as training specific to building on Infineon technology platforms. Experts from the company will work closely with startups on prototyping and solution development at AIC-Sangam. Going forward, AIC-Sangam and Infineon will jointly identify problem statements for prospective startups.

### BEL achieves ₹ 117.89 billion turnover in 2018-2019

Navratna defence PSU Bharat Electronics Ltd (BEL) has achieved a turnover of ₹ 117.89 billion (audited) for FY 2018-2019, registering a growth of 16.9 per cent. The profit after tax for the period stood at ₹ 19.27 billion, which is an increase of 37.73 per cent over previous year. During the year, the company successfully completed the supply of electronic voting machine (EVM) and voter verifiable paper audit trail (VVPAT) within a stringent delivery schedule to meet the requirements of Election Commission of India for the general elections.

### More than thirty Japanese VCs looking to invest in Indian startups

NASSCOM has partnered with Embassy of India in Tokyo to create a community of Japanese venture capitalists (VCs) who have shown interest in building Indian portfolio of innovative businesses. The newly-formed community of VC firms, Japanese Venture Capital Network is inviting applications from promising Indian tech startups to participate in a live pitching session in Tokyo, Japan. Participants can pitch their companies to raise funding from over thirty VCs in Japan.

### electronica India and productronica India gear up for 2019 edition

After a tremendous response in Bengaluru last year, electronica India and productronica India are back with their 2019 edition, to be held at India Expo Centre in Greater Noida. The trade fairs saw approximately 600 exhibitors from 28 countries and a footfall exceeding 25,000 trade fair visitors in 2018—a number that is expected to go up this year, according to the organisers. The trade fairs are popular among exhibitors to showcase their latest innovations and get a strong foothold in the market. With participation of eminent players, the shows focus on bringing the best of the industry under one roof, for the visitor's advantage.

in 2018 with a market revenue share of more than 45 per cent. It is projected to showcase a similar trend over the forecast period (2019 to 2025) with more than fifteen per cent CAGR.

### Maharashtra gets major manufacturing investment

Days after Narendra Modi government was sworn in for a second term, Maharashtra became the first state to get a

major manufacturing investment—₹ 3.5 billion—for the second phase of Harman, a subsidiary of Samsung Electronics Co.

Expansion of its automotive electronics manufacturing plant at Chakan, Pune, was inaugurated by chief minister Devendra Fadnavis in the presence of NITI Aayog chief executive officer, Amitabh Kant. Fadnavis, after inaugurating the second phase of the plant, said that this was the first major manufacturing investment by a top global corporation post-2019 general elections. The plant will ensure substantial growth in production of digital cockpit units and telematics control units.

Fadnavis also said that Maharashtra has a total ecosystem developed for the industry, with the help of better law and order, availability of best human resources and industry-friendly initiatives, among others.
