

QUIKorrect Static Voltage Stabilizer

PATENTED TECHNOLOGY

Failure of Servo Stabilizers in CNC machines, petrol pumps, telecom installations, textile machines etc?

Expensive online UPS instead of servo? NOT REQUIRED!

SWITCH TO STATIC VOLTAGE STABILIZER - IGBT based PWM type design

Manufacture in your own brand name.

Technology transfer of QUIKorrect Static Voltage Stabilizer up to 70KVA single phase and 200KVA three phase

- No wear & tear ● No tap changing ● Wide input range ● 1% tight regulation
- Correction speed over 20,000V per second - vary input 100V to 300V more than 10 times within a second, output will be 220V constant.
- Protections - overload, short circuit, low voltage, high voltage etc ● 460V input protection for single phase, 800V for three phase
- 6KV lightning protection for 8/20uS ● Protection for neutral failure/ neutral floating & double phase, no need for isolation transformer
- Low cost BOM ● LCD & data storage for over one year

Visit us for a demo at Solar South expo, Chennai from 2nd - 4th August 2019. Stall No: S62
For video demonstration, go to google/ youtube and search "QUIKorrect"

BOM of 20KVA - Rs.12000
(single phase with input range +/-10%)

Technology cost - Rs.11,00,000
up to 200KVA three phase
