TMR 3WIR TMR 6WIR Series

RAILWAY DC/DC Converter

TRACO POWER

Features:

- Ultra wide 4:1 input range
9-36, 18-75, 43-160 VDC
- Miniaturized to the maximum
- EN 50155 railway approval
- I/O-isolation 3'000 VDC
- High efficiency
- Operating temperature range:
-40°C to +90°C
- Remote On/Off
- Short circuit protection
- 3-year product warranty

Metrix+™ Innovative Excellence

TESTING

Digital Multimeter
DM 620

50000 count True RMS programmable data logger multimeter with full auto range, analog bar graph and trend plot mode for analysis.

Digital ACDC Clamp
Meter 4250T

1000A True RMS auto-ranging AC/DC clamp meter with inrush current measurement, huge 52mm jaw size and sturdy build.

Digital Insulation Tester
DIT 3125A Eco

500/1000/2500/5000V and 1000GOhm megger with PI and timer measurement and large backlit LCD display.

Coating Thickness Gauge
Coat Gauge FN xL

Integrated probe with V groove capable of F and NF measurement upto 1500um with zero and multi point calibration.

Ultrasonic Thickness
Gauge UTM 9

Upto 350mm thickness measurement with selectable velocity and inbuilt calibration option for best accuracy.

Surface Roughness Tester
Microsurf 10A

Small volume, light weight and integrated probe design with multi parameter measurement and adjustable leg for flexible measurement.

Infrared Thermometer
MT 4xL

Best value for money IR thermometer upto 550°C range with data hold, C/F conversion, laser pointer selection and auto power off.

Ultrasonic Flaw Detector
UTFD 90

Upto 10000mm test range with P-E and dual transmission working modes, a-scan storage, auto-calibration and industrial level TFT display.
