

NuMicro® M261/M262/M263 Series

Arm® Cortex® - M23 Microcontroller ft. Low Power & High Security

Ideal for smart door lock, handheld device, RF (LoRa) module, and IoT node device

- CPU speed up to 64 MHz, with 512 KB Flash in dual bank mode, 96 KB SRAM, and FOTA supported
- Low power consumption: 45 μ A/MHz at a normal run with DC-DC; < 2 μ A at DPD
- Supporting SDHC 2.0, USB 2.0 OTG, and CAN 2.0B bus
- Secure boot function, built-in eXecute-Only-Memory (XOM), tamper pins, and crypto hardware encryption engine
- Built-in 12-bit 3.76 MSPS ADC, 12-bit 1 MSPS DAC, and Comparator (ACMP)
