

The Fastest PAM Bit Error Rate Tester (BERT)

For the last 20 years SHF has been pioneering in the test and measurement market for high speed bit pattern generators (BPGs or PPGs) and error analyzers (EAs). Now, with PAM4 being the main stream of interest for the optical and data communication research communities, SHF is continuing to push the limits by extending their instruments with high speed remote heads for the fastest PAM signal generation and real time error analysis available

Pattern Generation

- ▶ Up to eight 64 Gbps NRZ channels

BPG Remote Heads for

- ▶ 120 Gbps serial
- ▶ 112 GBaud PAM (224 Gbps @ PAM4)
- ▶ 60 GSa/s AWG

Error Analysis

- ▶ Up to eight 64 Gbps NRZ channels

EA Remote Heads for

- ▶ 120 Gbps serial
- ▶ 56 GBaud (112 Gbps) PAM4 BER analysis

Additional Products

RF Amplifiers

- ▶ Broadband up to 66 GHz
- ▶ Ultra linear

Digital Modules

- ▶ DAC up to 60 GBaud
- ▶ MUX & DEMUX up to 120 Gbps
- ▶ PAM4 Multiplexer up to 120 GBaud

Passive Modules

- ▶ Equalization Filter up to 56 GBaud
- ▶ Bias Tees up to 110 GHz
- ▶ DC-Blocks up to 110 GHz

RF Connectors

- ▶ Coaxial Adapters up to 110 GHz
- ▶ Flexible Cables up to 110 GHz
- ▶ Semi-rigid Cables up to 110 GHz
