Smart LED TV

With high-contrast picture

Continuing with its smart LED TV series line-up, Noble Skiodo announces its newest smart TV experience with NB39INT01, which provides high-contrast crystal clear picture. It brings access to a wide variety of apps and services, and seamless convergence of content with your smartphone. The 99cm (39-inch) HD screen is supported by 1366x768 pixel resolution and 16.7 million colours, which bring 4K UHD-ready media playability, greater clarity and details.

The integrated Android support on the TV allows you to play 4K content on the ultra-fast and user-friendly Cortex A7 quad-core CPU, along with 8GB inbuilt memory and 1GB RAM. The TV also supports intelligent user interface that allows direct content on TV home screen as per your interests. The intelligent UI offers 300,000 hours of viewing along with inbuilt user interest customised videos, and gives many options from preloaded apps like Netflix, Hotstar and Amazon Prime.

It has powerful audio output of 10W x 10W from two different speakers. Connectivity options include two USB ports, two HDMI ports, one Ethernet and Wi-Fi. The smart TV comes with two remotes: one for regular TV functioning and other, a magic remote, which is an inbuilt keyboard and a motion sensor remote that makes navigating quicker.

Wireless smart keyboard

Suitable for large living rooms

Astrum expands its smart product category with a wireless smart keyboard, KW360. Search, select and control your content with the familiar typing experience, fluid gestures of the touchpad or the point-by-point precision of the pad. Ergonomically designed, the keyboard comfortably fits in the hand with an adjustable DPI resolution that allows you to set the sensitivity level as per your preference. Compatible with both Android and iOS, KW360 is ultra-handly, compact and lightweight.

The keyboard comes with three-in-one functionality—wireless keyboard, mouse and touchpad—along with 2.4GHz wireless nano receiver. Its classic 360-degree flip

design and Qwerty layout for quick typing plus a touchpad for tactile onscreen control enable smooth performance. It has a selection of shortcut keys, so you can quickly

launch the Web browser, mute the volume, search or launch the email app and more. LED backlit feature makes it easy to use with the convenient option of well-spaced keys to minimise typing errors.

The keyboard has a long battery life and supports a 10m wireless transmission range, making it suitable for large living rooms.

Bluetooth speaker

For an unadulterated music experience

F&D announces a series of party speakers, the first being launched is W40 portable Bluetooth speaker. With excellent bass and flashing lights, the high-powered sound sets the scene for club night. Take it to a party and feel the night come alive, with built-in colour-changing RGB LED light band and a flashing strobe. TWS technology allows connecting two speakers at the same time to make the sound stereo.

The 40W output in a compact size brings alive a 360-degree sound field experience. The 6.35cm (2.5-inch) full-range driver with mega bass brings thundering low frequencies, while F&D sound technology adds rich details for high-quality sound in every track.

It features a long playtime with a 1800mAh lithium-ion battery and 20m range. Connectivity options include microSD card, and TF and aux cables. With built-in FM Radio, you can listen to your preferred channel anytime, anywhere.
