

Laptop

India's first laptop with built-in 4G LTE connectivity

iBall launches iBallCompBook Netizen to carry out business and professional chores effortlessly. The device sports a 35.6cm (14-inch) FHD IPS multi-touch display with 1920x1018 pixel resolution. It is powered by Intel N3350 dual-core processor with processing speed of up to 2.4GHz and 4GB DDR3 RAM. Enabling smooth multi-tasking and effortless productivity, it has inbuilt storage up to 64GB, which is further expandable with a microSD card up to 128GB. A separate 7mm expansion slot can be used for installing a hard disk or SSD, too.

Compbook houses a 4G SIM card slot along with 5000mAh battery, supporting longer hours of working with faster operation. It runs on Windows 10, and comes with several connectivity options including LAN, Bluetooth 4.0 and Wi-Fi in addition to being 4G-capable. The laptop also has one USB 3.0 port, one HDMI port and two USB 2.0 ports.

Noise-cancelling headphones

Eliminates unwanted noise with AI

WH-CH700N wireless noise-cancelling headphones are made for long listening on the move. One-push artificial intelligence noise cancelling (AINC) adjusts to your environment, so you can eliminate unwanted noise as you travel. AINC analyses background sound and adjusts it for optimal performance on aeroplanes and other noisy environments. Just press and hold NC button on the headphones to activate the feature.

Near Field Communication (NFC) technology makes complex setup sequences an easy feat. Simply touch selected NFC-enabled device to the on-body N-mark for a quick, seamless connection. Then, start streaming content via Bluetooth connection. If there is no NFC, you can manually connect using your device's settings menu.

A built-in lithium-ion battery delivers up to 35 hours of power (depending on your music settings), and is rechargeable via USB. Quick charging feature gives 60 mins of playback from 10 minutes of charge. The headphones' 40mm dome drivers deliver deep bass and a wide frequency range.

Mini projector

India's first can-sized pocket projector

Nebula, by Anker, announces Nebula Capsule portable mini projector with Wi-Fi, high-contrast pocket cinema and 360° surround sound. Nebula Capsule is a smart cinema that you can enjoy any-time, anywhere. Using Android 7.1, it plays content from any video streaming app and also mirrors the phone's screen to create a remarkably detailed picture up to 2.54m (100-inches) in size.

Price
₹ 31,999

The advanced DLP technology utilises IntelliBright algorithms that provide a radiant 100 ANSI lm picture quality. The technology projects pictures on any surface including the ceiling or bedsheets. Apart from traditional work, wireless casting transforms any indoor or outdoor space into a theatre, or creates an enhanced gaming experience on the big screen.

Nebula Capsule delivers up to four hours of continuous video on a single charge. Also, Quick Charge technology enables it to recharge faster and charge while in use. The projector can be operated directly from a phone using Nebula Connect app.
