

SOLVE EMI ISSUES IN NO TIME

Simplify the Complicated EMC Measurement and Debugging!

GSP-9330 spectrum analyzer has the design of a dedicated EMI button on the front panel, which greatly simplifies complex operation settings and it also has built-in EMI test regulations, filters, amplifiers and EMI QP/Average functions. The measurement efficiency of the spectrum analyzer can be effectively improved while collocating with the EMI kit. GSP-9330 collocating with the small, efficient, and patented GKT-008 near-field probe can expedite product's certification process and launch time.
