

has three million colour options. Easy to install without a hub, it can be controlled with Syska Smart Home app and Amazon Alexa—it does not support Google Home. It allows you to set alarms, too.

The bulb is available for ₹ 1000, and comes with two years of warranty.

Yeelight smart tunable white LED bulb. Yeelight smart bulb by Xiaomi can be operated with easy-to-use Yeelight app. The installation process is simple. Simply install the bulb, download the app and detect the device on the app.

It is compatible with voice assistants like Amazon Alexa and Google Assistant, and can also be integrated with IFTTT to change the lighting for notifications.

You can schedule auto switching on and off of lights and set the countdown timer through the app.

If you have multiple smart Yeelight devices in your home, these can be grouped in the app, eliminating the need for a hub. Brightness of Yeelight smart bulb is nearly 8W, which is decent for a big room and can be altered through the app. You can find this product online or in retail stores at a price of about ₹ 1800. It comes with a year's warranty.

Philips Hue smart LED bulb. This product offers a wide range of features, and comes with the intuitive and simple Hue app. You can name all the bulbs and control these with the

app. You can also change the colour of the bulbs individually or all together.

Geofencing feature allows you to set the switching off of the lights a minute after leaving home. The product is compatible with Siri, Apple Watch, Amazon Alexa and Google Home. You can select scenes to set the mood. Bulb colours also have temperatures ranging from 3000K (warm white) to 6500K (cool daylight).

One Philips Hue bulb starter kit contains three bulbs close to 9.5W, which can be dimmed and brightened manually or based on time of day. The kit also includes a hub, a power adapter and an Ethernet cable. The hub can be used to control nearly 50 smart devices. This kit costs about ₹ 16,000 in India—prices vary depending on available features and number of bulbs. Undoubtedly, this product is expensive for the Indian market. However, if the price is not a concern and you want to experience all the features that smart bulbs offer, it is worth the investment.

Lebrito Arco Wi-Fi smart LED bulb. This Wi-Fi-enabled multi-coloured bulb with intensity adjustment for each colour allows you to customise your room environment. Easy to install without a hub and compatible with voice assistants such as Amazon Alexa and Google Home, the device can be controlled with Smart Life app—you can download it from the Apple Store or Google Play Store, and register with the cellphone number or email to receive a code and activate the app to control the device. You can also schedule turn on and off timings using timers. This 9W bulb is available at a price of ₹ 1150 and comes with two years of warranty.

There are many other smart LED bulbs available in the market. We suggest you buy one based on your daily needs instead of the number of features. For example, you might not need 16 million colours. **EFY**
