

RPX2.5: INCREASE YOUR POWER DENSITY AT LEAST 50%

**RECOM Power Modules and Power Regulators
suitable for space sensitive applications**

- Input voltage up to 36V_{in}
- 1 - 6V_{out} adjustable Output
- Tiny buck regulator measuring 4.5mm x 4mm x 2mm
- Thermally-enhanced (with Flip-Chip technology) QFN package
- Wide operating temperature from -40°C up to +85°C or more at full load
- Efficiency up to 91%, no need for heatsinks
- Fully protected with SCP, OCP, OTP, OVP and UVLO
- Simple Class B EMC filter
