

Ear pods

Keep you going from work to workout

Toreto has launched TORBUDS wireless noise-cancelling earbuds for the daily dose of music while doing daily activities. TORBUDS boasts of better sound, better fit and better battery life, while Bluetooth 5.0 ascertains uninterrupted connectivity with any phone without the hassle of wires because of Auto Pairing Connectivity feature.

With a battery capacity of 500mAh, one can enjoy seven hours of non-stop music. TORBUDS case comes

with an inbuilt magnetic charger, which eliminates the need to carry a separate charging cable.

The earbuds give the freedom to instantly access voice-assistance services like Siri or Google with one-second single long press. An inbuilt mic allows the user to take calls, without taking the phone in the hand.

Fitness band

With coloured display and heart rate monitor

Ambrane has introduced smart fitness band AFB 38 for a smarter and healthier lifestyle. This fitness band comes with TFT LCD colour screen display that is readable even in sunlight. The compact screen displays all essential fitness information, clearly, whenever needed, with just a flick of the wrist.

Users can monitor their health with AFB-38's 24-hour dynamic advanced heart rate monitor. Equipped with lithium-polymer battery, it has seven days of standby time. The fitness band features an activity tracker that monitors over eighteen activities, ranging from pedometer calculation to calories burnt throughout the day along with sleep monitoring. It also features eleven sports modes that calculate movements whenever users indulge in any sports activity.

IP68-certified, this waterproof band is resistant to dust, sand and water up to 1.5 metres, making it ideal for daily wear—be it gym, jogging or any other outdoor place. The band also comes with continuous and advanced sedentary and goal completion reminder that motivates users towards their set goal targets with constant reminders.

The band syncs with the smartphone and delivers notifications like incoming calls, text messages, email alerts and other real-time alerts from Facebook, WhatsApp and more to minimise the need for multiple gadgets. It also features a camera remote shutter that allows users to seamlessly control their smartphone's camera from the watch. Anti-lost feature helps locate the phone.
