

RCDE-48: LOW COST HIGH EFFICIENCY LED DRIVER

**Suited for 48V powered lighting solution achieving
up to 15 high brightness LEDs**

- Low cost buck LED driver
- 6-60V input
- Constant current output (350, 700 or 1050mA)
- Digital PWM and analogue voltage dimming
- High efficiency up to 97%
- no internal E-Caps
- Compliance to RoHS2 conformity
