

4K AI Android TVs

India's first 4K AI Android Pie (9.0) TVs providing advanced AI features

TCL has come up with an innovative range of 4K artificial intelligence (AI) TVs that are propelled by the latest Google-certified Android Pie (9.0) and leverage AI to completely transform the TV viewing experience for Indian users. The company has unveiled P8S, P8E and P8 as part of the series.

P8S series has 1.7m (65-inch) and 1.4m (55-inch) variants. P8E and P8 series extend 1.4m (55-inch), 1.3m (50-inch) and 1.1m (43-inch) variants each. The TVs transform into a seamless gadget, allowing users hands-free control of not only the TVs but other smart home devices like smart fan, robot sweepers, curtains and lights, too.

Using Via AI Fairfield Technology, the TVs enhance image and sound engineering to offer an immersive TV viewing experience.

Additionally, with Sports Mode feature, the TVs

(P8S)

enhance the perception of an ongoing match, giving one of the most dynamic and edgy sports viewing experience.

For digitally-savvy consumers, the TVs come integrated with Netflix and YouTube. Further, users can also access the expansive gallery of TCL, owing to its content partnerships with Hotstar, YuppTV, Voot, AltBalaji and others.

Wireless headphones

Featuring multicoloured glow-up LEDs

VingaJoy has launched HP-55 Glow Up series wireless headphones. With its unique LED functioning, these stylish headphones produce advanced audio distribution for high-quality music.

The wireless headphones come with multicoloured glow-up LEDs and sport an ergonomic design for extra comfort. The lithium-ion rechargeable batteries provide up to eight hours of playback time.

The noise-isolation feature allows detailed sound by keeping unwanted noise out while still allowing the user to be aware of the surroundings.

Wireless car charger

With fast charge technology

Pebble extends its car accessories portfolio with wireless car charger Grip, which is a combination of car mobile charger and a mobile holder. The car charger doubles as an adhesive for twice the strength and grips to air vents. Simply attach it to the air vent and slide the phone into the mount for a secure hold of the phone. The never-slip vent mount keeps the phone from slipping, sliding or falling off from the vents.

The easy-to-use car charger supports fast wireless charging with 10W/7W/5W standards along with advanced temperature control, which maintains consistent temperature while charging and protects from over-heating. The Qi-compatible wireless car charger is compatible with most phones.

The technology ensures ten-way circuit protection, not just from current surge, over-voltage and over-temperature protection but also from accidental falls when driving on bumpy roads or when applying sudden brakes.
