

## Wireless mobile charger

Equipped with alarm clock and LED lamp

Portronics has introduced Freedom 4, a smart wireless mobile charger with alarm clock and LED lamp. The device weighs less than 150 grams, and is ruggedly built using high-quality ABS plastic. It assures safety from current surge, over-voltage spikes and over-heating.

The charger comes with wireless and wired charging options. For wireless charging, it is equipped with Qi charging option with a maximum distance of wireless charging of up to eight millimetres and charging efficiency of 73 per cent.

For wired charging, users can use USB/Type C cable supported by the phone they are using. With input from Type C USB cable (5V/2A or 9V/1.67A), it gives an output of 10W/7.5W/5W.

With large and easy-to-read text with multi-function button MFB, users can set an alarm and easily switch between 12-hour and 24-hour clocks. They can adjust the brightness of the clock display, too.

The charger features an inbuilt LED light, which emits soft light that can be used for night reading, or safely going to the washroom in the middle of the night without tripping in the darkness.

## Gaming laptop

The world's slimmest gaming laptop

The world's slimmest gaming laptop, ROG Zephyrus S GX531 is 15.35mm ~ 16.15mm thin and features NVIDIA GeForce RTX 2070 Max-Q. Weighing only 2.1kg with 9th-generation Intel Core i7 CPU, the laptop offers uncompromised display with super-narrow bezel and 144Hz refresh rate. The three-millisecond response time enables super-smooth gaming with blur-free graphics.

The laptop extends the most realistic gaming experience with the new generation RTX 2070 series GPUs, real-time ray tracking and artificial intelligence (AI) calculation acceleration. Enhanced performance with optimum cooling is ensured via ASUS' patented Active Aerodynamic (AAS) cooling system.

## Portable speaker

Designed for parties and performances

French company Zook has launched a portable entertainment party speaker, ZB-Rocker Thunder Plus, in India. With unmatched sound quality, amazing battery backup, FM radio and flashing DJ lights, the portable speaker is perfect for hosting parties and performances.

ZB-Rocker Thunder Plus features dual high-performance drivers, enabling an impressive 40W sound output.

The speaker also features on/off switch to control multicoloured racing lights while the music plays. The included wireless microphone makes the speaker the perfect companion for karaoke performances.

The device is equipped with inbuilt FM receiver and is compatible with most Bluetooth-enabled devices, including Apple, iPhone and iPod, most Android devices and other smart devices for simple wireless audio streaming. It also features onboard USB reader and TF card slot to play MP3 music files or plug in any device via aux.

The built-in rechargeable lithium-ion battery provides extended playback and music streaming of four hours on a full charge. The speaker is also bundled with a remote for ease of use and convenience.
