

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars/Events

Name, Date and Venue	Topics	Contact address for details
IFA Berlin September 6-11, 2019 Berlin	Event for innovative consumer electronics and appliances	IFA Berlin Website: https://b2b.ifa-berlin.com
IoT Latin America 2019 September 17-18, 2019 Sao Paulo, Brazil	B2B event exclusively focused on the Internet of Things (IoT) sector	Technology Hub Brazil 2019 Website: https://technologyhub.com.br/en
WNIE Live 2019 September 18-19, 2019 NAEC Stoneleigh, Warwickshire, UK	The UK electronics trade show	WNIE Live 2019 Website: www.wnie.co.uk/live
Consumer Electronics China (CE China) September 19-21, 2019 Guangzhou PWTC Expo, China	A global IFA event, designed to be China's premier trade show for consumer electronics and home appliances brands	Berlin Exhibition (Guangzhou) Co. Ltd Website: http://cechina-ifa.com/en
productronica India September 25-27, 2019 India Expo Centre, Greater Noida, Delhi-NCR	International trade fair for electronics development and production	productronica India Website: www.productronica-india.com
electronica India September 25-27, 2019 India Expo Centre, Greater Noida, Delhi-NCR	India's and South Asia's leading international trade fair for electronic components, systems and applications	electronica India Website: www.electronica-india.com
5G Antenna Systems September 26, 2019 New York, USA	Event solely focused on 5G antenna systems	5G Antenna Systems Website: www.antennasonline.com
GITEX Technology Week October 6-10, 2019 Dubai World Trade Centre	Tech show in MENA and South Asia	GITEX Technology Week Website: www.gitex.com
2019 Korea Electronics Show (KES2019) October 8-11, 2019 Coex, Seoul, Republic of Korea	Showcases the modern and future electronics and IT industry of Korea	Korea Electronics Association Website: www.kes.org
AsiaWorld-Expo October 11-21, 2019 Hong Kong	Oct. 11-14: Consumer electronics Oct. 18-21: Mobile electronics plus startups	AsiaWorld-Expo Website: www.asiaworld-expo.com
OSI Days October 17-18, 2019 NIMHANS Convention Centre, Bengaluru	Premier conference in Asia targeted at nurturing and promoting the open source ecosystem in the subcontinent	EFY Enterprises Pvt Ltd Website: www.opensourceindia.in
India Consumer Electronics & Home Appliances Exhibition November 14-16, 2019 Bombay Exhibition Center, Mumbai	Show on consumer electronics	India Consumer Electronics & Home Appliances Exhibition Website: www.ceifair.com
Bengaluru Tech Summit November 18-20, 2019 Bengaluru Palace	A platform for industries, technologies and technocrats worldwide to understand and leverage latest innovations and technical repercussions on our businesses and daily lives	Bengaluru Tech Summit Website: https://bengalurutechsummit.com
The Big 5 Solar 2019 November 25-28, 2019 Dubai World Trade Centre, Dubai	Event for the solar, energy and HVAC sector	Indian Chamber of Commerce Website: www.indianchamber.org
AeroDef India Manufacturing December 3-5, 2019 Bangalore International Exhibition Centre, Bengaluru	Platform for Indian and international aerospace and defence equipment manufacturers to source raw materials, components, sub-assemblies and finished products and sub-contract essential manufacturing processes to Indian MSMEs	Infinity Expo Website: www.aerodefina.com
International Electronic Circuits (Shenzhen) Exhibition December 4-6, 2019 Shenzhen Convention and Exhibition Center	A platform for electronic circuit industry enterprises and upstream and downstream industry enterprises to exchange and display their strength	Hong Kong Circuit Board Association (HKPCA) Website: www.hkpcashow.org
Consumer Electronics Show 2020 January 7-10, 2020 Las Vegas Valley, Nevada, USA	World's gathering place for those who thrive on the business of consumer technologies	Consumer Technology Association Website: www.ces.tech

Battery manufacturers in India will soon get subsidies

India in December will be inviting bids from global players to further boost its clean energy mission. In addition to subsidy benefits for ten years, it will offer a host of incentives such as depreciation and zero-import duty on key inputs. The subsidy proposal is being examined by Expenditure Finance Committee and will soon be taken to the Cabinet.

The government aims to subsidise the creation of up to fifty-gigawatt-hours of battery capacity per year. Zero-duty imports would be allowed for lithium, iron and cobalt to power advanced cell chemistry in place of traditional lead batteries.

The plan seeks to make the country self-sufficient in new-age batteries for electric vehicles (EVs) as also for cellphones and other consumer electronics, significantly reducing the import bill.

Tesla may invest in building battery plants in India

Tesla has shown interest in the Indian government's plan to build large factories to make lithium-ion batteries at an investment of about ₹ 500 billion. China's Contemporary Amperex Technology Co. Ltd (CATL) and BYD Co. Ltd are among the other firms that have shown interest in the mega project.

According to government officials aware of the matter, the plan to set up these fifty-gigawatt hour (GWh) factories has been cleared by Expenditure Finance Committee (EFC), with the final tender expected to be awarded by February 2020.

Each gigawatt-hour (thousand megawatt-hours) of battery capacity can power one million homes for an hour and around 30,000 electric cars.

Federal policy think tank NITI Aayog is leading the move to build the giga plants, and aims to replicate Tesla's Gigafactory in Nevada, which it uses to power cars like Model 3, S and X.

LED lighting industry witnessed CAGR of forty per cent in the last six years

The Indian lighting market, including the LED segment, has witnessed
