

The Main Different Functions:

No.	Functional Description	Advanced Versions	Professional Versions
1	Output frequency range	15~1000Hz	15~1200Hz
2	Built-in IEC standard	IEC61000-4-11	IEC61000-4-11 IEC61000-4-14 IEC61000-4-28 IEC61000-3-2 IEC61000-3-3 IEC61000-4-1
3	Harmonics/inter-harmonics generate simulation and measuring function		✓
4	Output impedance function		✓

SP300VAC2000W SP300VAC3000W
SP300VAC4000W SP300VAC5000W

APM Technologies (Dongguan) Co., Ltd

VigVen Tech Mark Pvt. Ltd. Is appointing Channel Partners & Distributors for Test & Measurement Products in India for our Key Product lines: -

RF & Microwave Instruments

- RF & MW Spectrum Analyzers
- RF & MW Network Analyzers
- MW Synthesizers
- Power sensors
- High Performance Oscilloscopes
- High-Speed Digitizers
- Functional Testers
- RF & MW Signal Sources / Generator
- PCI/ cPCI/ PXI / PXIe Products
- Advance Semiconductor Test System Solutions
- Power Supplies and Many More...

Interested Companies Must send us your detailed company profile and your Expression of Interest to our email id cp@vigven.com on or before 25th August 2017
