

MATRIX COSEC: PEOPLE MOBILITY SOLUTION

More Locations

More Flexibility

More Control

Traditionally in business, more locations has always meant lesser control. Not any more. Because there is hardly anything traditional about the futuristic COSEC range of Access Control and Time-Attendance solutions from Matrix. These technological workhorses per form seamlessly across multiple locations - removing all barriers of size, time and distance. They integrate biometrics with RF

cards and are engineered to adapt to current and future organisational needs. Thus it is no surprise that Matrix COSEC has been chosen by progressive organisations like Adani, Coca-Cola, Cipla, Hero MotoCorp, Gold's Gym, Shriram Transport and Shapoorji Pallonji.
