Wireless Bluetooth earbuds from Zook

True wireless freedom with premium sound for your music

ZB-Rocker twinpods are two independent wireless earbuds completely free from any wires or neckbands. The twinpods give you true wireless freedom with premium sound for your music, are water and sweat resistant, have an integrated microphone for calls, come with play/pause music control and are ultra-light with silicone air grooves for long-lasting comfort and a secure fit. These are compatible with all Bluetooth devices.

Fastrack unveils activity tracker

For people who like to keep track of their lives

Fastrack is making its debut into the smart wearables segment. Its latest smart wearable titled Reflex will allow millennials to exhibit their passion while accessorising. Fastrack Reflex activity trackers are IPX6 water-resistance, and feature dual-colour PU bands, a rechargeable unit with USB port and OLED screen. These come in many colour options, namely, purple, black, blue, orange and red.

The bands display incoming call notifications and texts, enable you to keep track of your activities of the day, calories consumed and memory storage that can last 15 days to store exercise data. The wearables also help track sleep patterns and come equipped with a sedentary reminder, which notifies you if you have been stationary for long intervals.

Pioneer India launches enclosed subwoofers

Strategically priced and affordable for consumers

Pioneer India Electronics has launched its new enclosed subwoofers TS-WX306T (tube type enclosure) and TS-WX306B (box type enclosure). TS-WX306B box subwoofer and its cylindrical TS-WX306T counterpart are not only affordable but also share a refreshingly new grille design, which is functional as it protects the onboard speaker driver. Both enclosures share the same driver unit with a max wattage of 1300 watts and RMS of 350 watts.

Pioneer has used new voice coil cooling system (VCCS) technology in the driver unit. With VCCS, the heat dissipation mechanism of the unit is made more efficient. With this type of heat dissipation, the unit becomes durable and can handle high power. VCCS also helps in reducing the overall weight of the enclosures, which, in turn, least affect the car's fuel efficiency.

TS-WX306T

Aadhaar Pay launched

The government of India has launched IDFC Aadhaar Pay—the first Aadhaar-linked cashless merchant solution, offered by IDFC Bank Ltd. Aadhaar Pay is a service for merchants that will enable them to receive payments from customers without any physical payment instrument. The app has to be downloaded by merchants on their phones and linked to an Aadhaar biometric reader. Once the merchant has this infrastructure in place, consumers can start transacting.

App to pay income tax, issue PAN

In tandem with the government's Digital India drive, Income Tax department is developing an app that will allow people to pay taxes or apply for a permanent account number (PAN) using smartphones. The department is also working on a project to issue PANs to people within minutes by way of e-KYC authentication using Aadhaar, a move that will help bring more people under the tax net by making it easier for people to get PANs.

Made for India data-saving app by Microsoft

Microsoft has launched Skype Lite, an exclusive Made for India app to provide a seamless experience in messaging, audio and video calling even at lower bandwidths. The lightweight app supports Indian languages including Gujarati, Bengali, Hindi, Marathi, Tamil and Telugu. Packed in a 13MB file, Skype Lite is available only for Android devices and is especially designed to save data.

Multi-lingual breast cancer awareness app

A mobile app that aims to spread awareness about all aspects of breast cancer has been developed by Hyderabad based oncologist Dr Raghu Ram. It is available in both iOS and Android versions. It offers information about breast cancer and benign non-cancer breast health issues in 12 languages, namely, English, Hindi, Marathi, Gujarati, Punjabi, Bengali, Telugu, Tamil, Kannada, Malayalam, Oriya and Assamese. The app also contains a section titled Myths and Facts, which aims to dispel many common misconceptions about breast health.
