HD Bluetooth Speaker

Metallic finish with backlit touch-control buttons

Experience high-definition (HD) sound with metallic-finished SB521 Bluetooth wireless speaker from SoundBot. Perfect for both indoors and outdoors, the speaker comes with a 1500mAh built-in battery for six hours of non-stop playback. It gives music lovers an exhilarating experience with dynamic sound quality, and can connect to all gadgets in the house. Party at any place with its dual membrane of 5W + 5W HD loudspeakers on both ends of the speaker to reproduce potent bass, dynamic mid-range and crispy high notes.

Android Smartphone

Google Pixel 2 now available in India

Running Android Oreo, Google Pixel 2 has a cinematic 12.7cm (5-inch) Full HD (1920x1080) AMOLED 16:9 display. The smartphone packs a Qualcomm Snapdragon 835 octa-core processor, 4GB LPDDR4 RAM, Adreno 540 graphics, 12MP f/1.8 rear camera with optical + electronic stabilisation, 8MP f/2.4 front camera and stereo front-firing speakers.

The phone runs on a 2700mAh battery, and is IP67 water- and dust-resistant. Connectivity options include Wi-Fi 2.4/5GHz 802.11 a/b/c/n/ac, Bluetooth 5.0 and NFC.

EFY BUREAU

Portable Car Air Purifier

With no recurring cost

Equipped with Plasmacluster technology, Sharp's portable car purifier IG-GC2 works by dispatching ions to each and every corner of the car, thus reaching out to the source of the hidden smell in the mat, ceiling, seat covers and dashboard; destroying them not only form the air but even from the surface. Additionally, the washable PM10 filter ensures that most road dust particles that penetrate the AC filter can also be trapped. There is no recurring cost and the purifier can be used for up to 19,000 hours or 10 years.

IG-GC2 comes with two-port USB car adaptor to charge the device. It also combats the dangers posed by exposure to VOCs, PBDEs and phthalates in your car. The purifier weighs approximately 265gm (excluding accessories).
