

Gecko Screw-Lok Connectors From Harwin

Secure • Space saving • Ideal for harsh environments

Secure fixings and metal backshells for Hi-Rel 1.25mm pitch connector family

Harwin's Gecko range has now been expanded to include the much-anticipated screw fixings variations, known as Gecko Screw-Lok (or Gecko-SL). The range is being launched with Vertical Throughboard, Vertical Surface Mount and Cable options, all in Male and Female connector types. The same high performance of the existing latched versions is maintained, with the added security of screw fixings.

Feature

- 2A per contact (all electrically loaded; 2.8A per individual contact)
- 4-finger Patented* contact design to maintain electrical contact through high vibration and shock
- Beryllium Copper Contact for improved temperature range: -65°C to +150°C
- 1,000 Mating cycles durability
- Weight and Space saving over Micro-D connector products
- Future-proofed Materials - halogen-free, PFOS-free, SVHC-free and RoHS compliant
