Frequency Range

3Hz - 4GHz/ 9GHz/ 13.2GHz/
18GHz/ 26.5GHz/ 40GHz/
45GHz/ 50GHz)

Key Features

- Optional External Mixer extends to Max 325GHz.
- 1GHz measurement sensitivity -167dBm/Hz.
- Maximum 200MHz analysis bandwidth.
- Support Phase Noise, Analog Demodulation Measurements, Pulse Signal, Transient, Multi-Domain Correlation Analysis & Playback
- Support Analogous and Digital Signal Output Interface.
- Digital Signal Output, 1X or 4X Optical Fiber Output Channel, Real-Time Data Interface To Record Broadband IQ Data.
