Telecom sector attracts US\$ 4.19 billion in FDI

The government of India has recently released achievement reports on the three relatively more vibrant sectors of the Indian economy, namely, textiles, telecom and automobiles, that make a sizeable contribution to Indian merchandise exports.

According to this report, India, with 275 million smartphone subscribers, recently outpaced the USA to become the second largest smartphone subscriber base in the world. With 100 per cent foreign direct investment (FDI) allowed in the telecom sector, 49 per cent of which is permitted through the automatic route, total FDI in the sector during 2014-16 was around US\$ 4.19 billion.

Apple seeks incentives to set up manufacturing unit in India

Tech giant Apple has sought incentives from the government of India to set up a manufacturing unit in the country. In a communication to the government, Apple has asked for incentives related to Department of Revenue and Ministry of Electronics and Information Technology.

The company had earlier sought exemption for the 30 per cent domestic sourcing norms, on the ground that it makes state-of-the-art and cutting-edge technology products for which local sourcing is not possible.

Halonix gets BIS certification for LED streetlights

Halonix Technologies, one of India's leading lighting companies, has become the first lighting brand in the country to get Bureau of Indian Standards (BIS) certification for its range of LED streetlights. The certification was awarded by BIS after rigorous assessment of the performance, quality, safety and reliability of Halonix' range of streetlights.
