

percentage, battery charging and discharging current, and output voltage, load current and frequency

- Pure sine-wave output with voltage THD less than three per cent and current less than eight per cent on 0.8 PF load
- Inverter efficiency greater than 87 per cent on 12V operation
- MPPT charge controller rated at 14.5V @ 10A
- Advanced MPPT algorithm, incorporating bulk, absorption and float mode
- MPPT efficiency of more than 93 per cent
- Full protection against reverse polarity of PV and battery

Industrial trainer

Dyna-iDCS is designed around ADAM-3600, an intelligent remote controller

with multiple wireless function capability, multiple I/O selection, wide temperature range and support for flexible communication protocol for real-world industrial applications.

ADAM-3600 is designed for use in the IoT for remote diagnosis, maintenance, visual management and strategy development. Dyna-iDCS can also be seamlessly integrated with SCADA for remote monitoring and control.

PCB cleaner

Some specifications are as follows:

- 170V to 245V AC, 50Hz one-phase electric supply
- 100W ultrasonic power

- 40KHZ or 33 $\pm$ 3kHz ultrasonic frequency
- Protection to prevent over-heating; cleaner should automatically shut down in case of over-heating
- PZT sandwich-type transducers

IoT platform

Bolt is an IoT platform that makes IoT development quick and easy. Bolt takes care of all common IoT tasks such as security and scalability so that you can focus on the use case. It lets you do the following:

- Remotely communicate
- Customise dashboard
- Access management
