India offers Apple tax sops to expand production

India has offered to let Apple import mobile handset components for use in local manufacturing tax free. The tax concessions will be subject to the condition of increasing local value addition over a period of time.

Apple wants to expand its contract manufacturer Wistron's facility in Bengaluru as it seeks a bigger share in one of the world's biggest smartphone markets. The company has just recently started making iPhone SE in Bengaluru.

Among a set of tax concessions, Apple had initially sought a 15-year tax holiday on the import of all components. A panel of ministries rejected that demand and has instead offered tax exemptions on components that cannot be manufactured in India.

Samsung to double mobile phone production in India

Samsung Electronics plans to double the production capacity for mobile phones and fridges at its main factory in India. The South Korean electronics major would spend ₹ 49 billion over three years to expand the factory on the outskirts of New Delhi. It also manufactures TV sets at the plant.

"Samsung would want to reduce their dependence on manufacturing in Vietnam and shift more operations to India," said Tarun Pathak, associate director at technology research firm Counterpoint. "India looks like a promising manufacturing hub in the coming years and Samsung could make it their base for exports."

Panasonic eyes 10 per cent TV panels share by year-end

Panasonic India is aiming to capture 10 per cent market share in the TV panel segment by the year-end. The company, which has recently expanded its high-resolution 4K TV lineup by adding EX 750 Series and
