

G+D Mobile Security, Murata and STMicroelectronics join hands for IoT solutions

G+D Mobile Security, Murata and STMicroelectronics have teamed up to integrate cost-effective security features into IoT devices. Available now for a wide range of applications and vertical markets, the joint solution aims to ensure integrity and confidentiality of the data exchanged and allow distribution of LPWAN keys in a fully secure manner.

ESG, Diehl Defence and Rohde & Schwarz cooperate for protection against drones

Drones pose a serious security risk at major public events and also to high-risk infrastructure and facilities such as airports, industrial test sites and military sites. With this in mind, ESG Elektroniksystem und Logistik-GmbH, Diehl Defence and Rohde & Schwarz plan to coordinate their efforts and provide fully customised, bundled solutions based on their proven expertise in the fields of radar, radio monitoring, electromagnetic countermeasures, command and control information systems, and position mapping.

Adani Group commissions 50MW solar plant in UP

Adani Group, a global integrated infrastructure conglomerate, has commissioned a 50MW solar PV plant in Mahoba, Uttar Pradesh, under the National Solar Mission Scheme, with an investment of ₹ 3150 million. The plant uses string inverter technology, which is said to be the first of its kind in UP with crystalline silicon modules that allows miniature-level control of solar power generation.

BEL's report card for 2016-17

Bharat Electronics Limited (BEL) has registered a turnover growth of 17 per cent to reach ₹ 88,250 million in 2016-17 over previous year's ₹ 75,410 million. Of this, turnover from indigenous technology is 87 per cent. The PSU's other major accomplishments during the year included induction of weapon locating radar to army and supply for major projects like integrated air command and control system, handheld thermal imager with laser range finder, electronic fuse, low-

level transportable radar and ship-borne electronic warfare system (Varuna).

EX 600 Series, also eyes similar 10 per cent share in this segment.

"Out of 100 TV sets, we are selling around three 4K sets. Our intention is to sell around six or seven 4K sets out of 100," Panasonic India and South Asia president and CEO Manish Sharma said. "This means that so far we are not doing enough in the 4K category," he added.

The 4K market is 4.5-5 per cent of the total TV market in terms of value and 2-2.5 per cent in terms of volume. The Indian TV market is around 12 million sets, growing by over 17 per cent.
