165cm Smart TV

Enjoy four times the clarity of a full HD TV

Europe-based Truvison has launched a premium 165cm (65-inch) TV with 4K panoramic ultra HD screen. The TV displays pictures that are denser with fine details. Also, you can access numerous apps and 4K HD channels. An inbuilt Miracast feature along with the in-built WiFi lets you stream your favourite shows, photos, music and movies via multiple gadgets at a single touch.

Adding to the fun is the Air fly mouse—a compact gadget adding ease to your gaming experience. You can use it directly by shaking and moving it in the air or by using its key-board feature.

4G Android Smartphone

Featuring 12.7cm (5-inch) IPS display with Dragon Trail glass

Ziox Mobiles has added yet another variant to its Astra series, the VIVA 4G smartphone. Its 12.7cm (5-inch) display with Dragon Trail tough glass guards against scratches and breakage, while the wide-screen IPS technology allows viewing from any angle without distortion.

The phone runs Android 6.0 Marshmallow operating system, and includes 1GB RAM and 8GB ROM with 1.3GHz quad-core processor. It has a 5MP selfie camera along with a 5MP rear camera

with Flash, which gives clear and bright pictures even in low light.

Powered by a 2500mAh battery, the phone is perfect for those who keep travelling and are always on their toes. It comes in two colours of champagne gold, and black-and-grey.

OLED TVs WITH DOLBY TECHNOLOGY

For a cinematic experience at your home

LG Electronics India has unveiled its 2017 range of OLED TVs that feature self-lighting pixels, which enhances the picture quality. Colour science expertise by Technicolor reproduces accurate colours. Dolby Vision and Dolby Atmos deliver the perfect blend of superb picture and sound quality.

All the TVs in the range support the full palette of HDR formats, including Dolby Vision, HDR10 and HLG (Hybrid Log Gamma). This versatility is compounded by the new HDR Effect feature, which processes standard definition content frame-by-frame to improve brightness in specific areas, enhance contrast ratios and render more precise images. The latest webOS user interface provides seamless, intuitive navigation with Magic Remote's scroll, gesture and voice commands.

The LG 2017 OLED TV lineup consists of models 77/65W7, 77G7, 65/55E7, 65/55C7 and 65/55B7.

2.1-channel Speakers

With Bluetooth connectivity, Karaoke and FM radio

Zebronic's newest 2.1-channel speaker system, Tornado 2, comes with massive sound output of 12-watt RMS. Its cutting-edge sound technology with digital audio processing ensures high-quality sound. The system comprises two satellites and a subwoofer in a wooden cabinet that facilitates natural sound flow. Each satellite comes with dual 7.6cm drivers and a single 1.5cm tweeter.

Other key features include LED display, Bluetooth, karaoke function, USB port, SD-memory card slot, inbuilt FM radio and fully functioned remote control.
