Amkette Pocket

Portable media speaker
fit for travellers

Amkette Pocket speaker has built-in MP3, FM radio, USB/SD card playback, rechargeable and replaceable battery with 12-hour backup, and LED digital clock. The in-built torch will be your guiding light on a trek or when there's a blackout.

If you're a radio fanatic, worry no more because this speaker allows you to type in the number of your favourite radio channel directly without getting into the hassle of scanning other channels. Amkette Pocket also happens to be the perfect companion to laptops and PCs, so you can listen to playlists uninterrupted.

Bluetooth smart watch

Make and receive calls, and
get WhatsApp notifications

PTTron has launched its new Bluetooth smartwatch, Sporty S1, which is available exclusively on LatestOne.com. The smartwatch has a 5x4.8x1cm³ dial, with band made up of silica gel. It is powered by a built-in 380mAh rechargeable polymer battery, which takes up 30-60 minutes to charge completely. The battery supports standby of seven days and talk time of eight hours.

Featuring Bluetooth 3.0 and touch screen, the smartwatch supports phonebook, SMS and Whats App notifications, call answering and dialling, pedometer, remote camera and music. It supports both iOS and Android.

Asus Android Tablet

A fusion of latest technology and
stylish design

ASUS has announced a premium 25.6cm (10.1-inch) Android tablet, ZenPad 10 (Z301ML/MFL). The tablet features a fashion-inspired design with clean lines, embossed woven texture and polished metallic frame. The expansive Full HD (Z301MFL) or HD (Z301ML) IPS display features ASUS Tru2Life and ASUS TruVivid technology for comprehensive visual optimisation. Dual front-facing speakers, with support for DTS-HD Premium Sound and DTS Headphone:X virtual 7.1 surround-sound, render enhanced audio experiences.

The tablet is powered by a high-capacity, 4650mAh battery, which delivers up to 13 hours of video playback. Reversible USB-C port provides easy connections and convenient charging.

Google to make file backup much simpler

Google is launching a new tool called Backup and Sync, which will help users to easily backup all their important files and photos to the cloud. The tool will be compatible with Macs and PCs and is said to be the latest version of 'Google Drive for Mac/PC,' which is integrated with the Google Photos desktop uploader. The backed-up photos and videos can be found in Google Photos and Google Drive.

Snapchat launches location- sharing feature 'Snap Map'

Snapchat's new Snap Map feature lets you share your current location, which appears to friends on a map and updates when you open Snapchat. The feature was rolled out recently to all iOS and Android users globally. You can choose from three visibility options: share your location with all your friends or a few 'select' friends, or disappear from the map by going into Ghost Mode or not opening Snapchat for a few hours.

AI-enabled health coach app for fitness wearables

An Indian start-up, Bolt, has developed a range of fitness wearables such as 'smart' shoes and bands, integrated with an artificial intelligence (AI) app that provides users a personalised feedback, based on their real-time performance and training. The app uses statistics and data captured from the connected devices to help make better training and running decisions. The Siri-like voice provides real-time coaching and in-ear dynamic audio feedback.

Microsoft Pix can now turn your iPhone photos into art

Microsoft is rolling out an update to its AI-powered photo editing app, Microsoft Pix, which allows you to transform your photos into works of art, and use other effects. For example, one effect will make the picture look like it's on fire. These are not photo filters, to be clear—the styles actually transfer texture, pattern and tones to the photo, explains Microsoft. The app has been launched with eleven styles included, but more will be added soon.
