

Multipurpose DC/DC converters

for harsh environments and mission critical applications

AEDON, LLC is the leading Russian company which is specialized in design and development of Hi-rel and compact DC/DC converters for mission critical applications that are able to operate in harsh environments and meet the most demanding customer's needs. The product portfolio consists of converters with an output power range from 1 to 3000 W. The company has also a vast experience in development of custom-designed products.

MDR Family, 25 W NEW OFFER

FEATURES

- Case operating temperature $-60...+125^{\circ}\text{C}$
- Low-profile design 10,25 mm
- Typical efficiency 86% for $U_{out}=24\text{ VDC}$
- Input voltage range 2:1 and 4:1
- No optocouplers
- Protection from vibration, dirt, moisture and salt mist

DESIGNED TO MEET

Safety Std. Apprval	EN60950-1
Enviromental Test Std.	MIL-STD-810G
EMC Std.	MIL-STD-461E
Aircraft Electric Spec.	MIL-STD-704F

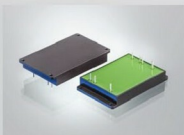

Description of MDR Family:
eng.aedon.ru/pr-mdr-gp/

MDV Family

Compact isolated DC/DC converters with power from 3 to 1000 W and operating temperature from -60 to $+125^{\circ}\text{C}$, intended to supply stabilized voltage to analog and digital equipment of mission critical application.

MDVH Family

Units of MDVH series with 110 VDC and 230 VDC nominal input voltage are designed to convert high DC voltage coming from a backup power supply or a bus formed by on-board generator and rectifier.

MDN Family

MDN is a series of isolated converters in SIP package that provide consumer power capacity from 1 up to 10 W with high efficiency that are able to operate within case temperature range between -60 and $+105^{\circ}\text{C}$.

Authorized Distributor in India:

Rebutor Electronics Pvt.Ltd
199/D First Floor, 4th Main, HAL 3rd Stage
Jeevan Bhima Nagar, Bangalore 560 075
