iBall introduces Tablet PC with 'Remix OS'

Suited for productivity and multi-tasking

iBall Slide Brace-X1 4G runs Android based operating system 'Remix OS' from Jide Technology, offering you a fusion of mobile and desktop experience. Unlike Android OS devices, which are optimised for consuming content rather than creating/editing it, the new tablet PC supports multi-tasking, working on multiple windows, taskbar functionalities that let you do a lot more, keyboard and mouse optimisation, and advanced file management.

iBall Slide Brace-X1 4G comes with a 25.6cm (10.1-inch) screen with flexible kickstand. Powered by a 1.3GHz octa-core processor, it packs 2GB RAM and 16GB internal storage that can be expanded up to 64GB via a microSD card. It sports an 8MP rear camera and a 5MP front shooter for selfies. The tablet PC is powered by a 7800mAh battery.

Zopo Speed X

A dual-camera smartphone with LED light on the front

Chinese smartphone brand ZOPO is expanding its Speed product line-up with the launch of a high-end smartphone, the Speed X. The new smartphone comes with a 13MP primary camera, which works with a 2MP secondary camera that allows you to take stunning pictures with bokeh effect, face beauty mode, time lapse mode, and much more. The soft light LED flash on the 13MP front camera can be always on to keep you in the spotlight. It's like holding a lamp on the front, giving your face a soft radiant complexion. So good-looking selfies can be taken anytime anywhere.

The stylish Speed X weighs only 131gm.

Daiwa launches Toughened Glass LED TV

Perfect for both gaming and home theatre

Daiwa has launched its newest LED TV—81cm (32-inch) D32C3GL with toughened glass protection while maintaining clear and vivid quality of high-definition TV. The TV sports HRDP technology for fine details and consistent colour, and A+ grade Samsung display panel for a wide viewing angle of 178/178 degrees. The advanced Cinema Zoom mode pre-installed in the TV lets you enjoy a movie exactly how the maker wanted it to be. The TV can also play fast-moving games by achieving a low input lag time of just 6.5ms.

The TV sports Bluetooth connectivity and powerful audio (10W + 10W speakers) are paired with a powerful remote. The remote supports not just the TV but also media players and wireless headphones connected to your home entertainment system.

The TV comes with two USB and three HDMI ports, along with the convenient on-screen browser and USB ports for easy data transfer from one USB to another. An in-built energy saving function supports ultra-low power consumption of less than 38 watts.

Alcatel launches Entry-Level Phablet

A 15.2cm (6-inch) phablet with 4G VoLTE connectivity

Alcatel has launched a 15.2cm (6-inch) phablet with a comprehensive user experience in audio and camera. The new PIXI 4 offers clear, sharp shots for selfies, along with Polaroid filters, a powerful music experience with sound backed by Arkamys, and a super slim design.

Continuing its 12.7cm (5-inch) PIXI 4 legacy that had features like Android 5.0 Marshmallow, Quad Core 1.0GHz processor, G sensors and proximity sensor, the new phablet promises to deliver an even better smartphone experience at an affordable price through its technological brilliance. Just 8.3mm thick, it is said to be among the slimmest models in entry-level segment.

The phablet comes in metallic silver and metallic gold colours.
